Rheumatic Twinges

With Old Age come Twinges of "Rheumatism" and aches in the back which

"Basanos Red Oil"

Always cures. We carry this as well as all other standard remedies constantly in stock. The

"Red Oil"

Is one of the best preparations of its kind, it is a sure cure, (if directions are followed) for not only "Rheumatism" but also for "Chilblains" being successful in every case of the latter where it has been tried, also in "Sprains," "Gout," &c. Everybody should have a bottle of this reliable remedy. For Sale at

"THE DURHAM PHARMACY."

GALDERS' Block, Durham.

Have you Tried the "German" "Rheumatism Powder"?

By the famous American Dr. J. C. May

The Grey Review.

Durham, Thursday, Feb. 20, 1896.

A rumor that Britain was about to evacuate Egypt produced almost a panic in Cairo. The rumor was officially denied, but it has been useful as showing the desire of nearly all classes in Egypt for British occupation. Wonder what France thinks about this?

The North Pole! But to mention it is to arouse interest. Such was the case last week when a rumor came that the mysterious pole was at length discovered by Dr. Nansen. This rumor lacks confirmation, however, it came via Russia, Yakinsk and the mouth of the Lena, and to details accompany it.

The Haddingtonshire Courier, published in the foremost agricultural county in Scotland is yet no advocate for protection. At a banquet of the East Lothian Association, the proposer of the toast "The Agricultural Interest" ventured to say that the depression in Agriculture would be relieved by the imposition of a good tariff against the foreigner. He was greeted with laughter and cries of "No No." The toast was coupled with the name of Mr. Gillis, a "son of practical agriculture," who said, "his friend might take it that protection in this country was banished forever. It would be a retrograde and melancholy step in the interests of Agriculture apart from all other considerations."

We do not charge Mr. Binnie, the Editor of the Globe, with being at the elbow of the Ontario Government, but we must congratulate him on being so good a watchman on the tower looking out for the bettering of the interests of his constituents. At the late meeting of the County Council Mr. Binnie in the interests of economy and efficiency advocated a reduction of the members of the County Council, and now, in the speech from the throne at the opening of the Local Legislature a measure for the reform of the County Council is forehadowed. Whatever the nature of the bill may be, we may safely conclude, that it will be, as sought by Mr. Binnie, in the interests of economy and efficiency.

—Though a little tardy we heartily congratulate our distinguished contemporary the "Globe," on now being settled in its new home, a handsome structure on the west corner of Yonge and Melinda streets. It has been constructed on the most approved modern principles, and fitted up with all the latest appliances for the turning out of a first class modern newspaper in the shortest time. A little over a year ago fire destroyed the "Globe's" premises with the accumulated treasures of two or three generations, including the "historic table" whereon George Brown was wont to fashion those fiery editorials which shook Canada from the centre to the circumference. We hope the "Globe" will not again be called upon to pass through such an ordeal, but that it will continue in the future as in the past to hold the first place in Canadian journalism both as a newspaper, and as the fearless and faithful exponent of public opinion.

While demagogues among our neighbors are seeking unwittingly we have no doubt, to embroil the Anglo-Saxon nations, others are seeking to draw our neighbors and ourselves more closely together. Canada and the United States are already linked together by railways and bridges and tunnels and do much in creating feelings of unity. Another bond is now talked of. A New Yorker has broached the scheme of building a bridge across the Niagara above the Falls and erecting thereon "the Great Dynamic Palace and International Hall," a forty-six story building, half a mile long, 1,500 feet wide, the first ten stories will be for dynamos, 7000 in number, capable of generating electricity sufficient to supply the continent, above this will gigantic flouring mills to grind wheat of the west, railroads to carry it away, stores and hotels to accommodate visitors and employees, and over all in the upper part of the building the great International Hall capable of seating 75,000 persons who may be addressed by one speaker at one and the same time by the use of electrical transmitters, the whole to cost \$40,000,000. Such is the scheme proposed by a Mr. Henkle of New York. Quixotic or sane will say, Time but the New York "World" says that Toronto and New York capitalists have guaranteed the interest on the entire capital and that the work of construction will begin next July.

CHICKENS COME HOME TO REST.

Sir Charles Tupper's re-appearance on the field of Canadian politics has been singularly unpromising. The Hon. gentleman has the reputation of caring particularly about or too rigid adherence to truth, especially when party purposes have to be considered. On several occasions since his election for Cape Breton, he has made the statement in public that his defect in that constituency was a life and death matter to the Liberals and that to secure it they had spent \$25,000. No second hand Sir Charles taken his seat in the House on Tuesday than Mr. Davis, of Nova Scotia, charged Sir Charles with making a statement in reference to the Liberal expenditure in Cape Breton which was without foundation in fact and wholly untrue, that all the money spent in Cape Breton was used in payment of legitimate expenses only and did not amount to \$1,500 and that Sir Charles Tupper should either withdraw his statement or move for a committee of the House to investigate the matter. Sir Charles in reply would do neither, and added that he had made the statement three times in the presence of Attorney General Longley, of Nova Scotia, who had not denied it. This was the signal for a persistent and deadly fire from the opposition benches. Sir Richard Cartwright reminded the House of the many instances of obliging of moral vision with which Sir Charles was afflicted. Mr. Mulock said that unless he moved for the appointment of a committee a cloud would rest upon the honor and veracity of Sir Charles. Mr. Devlin said that Mr. Longley had repeatedly asked to have the opportunity of speaking at Sir Charles Tupper's meetings was refused, and Mr. McIsaac, of Antigonish, stated the statements of Sir Charles Tupper as slanderous and cowardly. While this fusillade was being directed against the leader member for Cape Breton, Sir Charles left the House and did not re-appear that day. It is very unfortunate that a man of Sir Charles Tupper's position should have so far forgotten himself as to make charges against his political opponents which he could not prove, and that in order to make the charges good, he lacked the moral courage to make the amende honorable and withdraw them.

The Grand Council of the Canadian Protect Association met in Kingston last week. There were 376 delegates present, and these passed several resolutions in line with their well known principles. Of course Dalton McCarthy, Col. O'Brien, Stubbs N. Clark Wallace, and "other true and patriotic members of the house" received warm endorsement, and it was hoped that the struggle against oceanic would be successful. The Secretary's report showed that more than 150,000 men had been initiated since the inception of the order but did not state how many there were at present.

THE ONTARIO LEGISLATURE.

Was opened with usual time honored formalities last week. The speech from the throne forehadowed a large bill of fare for the House, and, as a good sign of the future, contained a large number of resolutions, the reports of some nineteen of the various Governmental Departments were laid on the table. The speech by the Hon. Mr. Gwynne, the proposer of mover and seconder of the address as well as those of Mr. Marter and Mr. Haycock were admirable, devoid of the acrimony which so often distinguishes speeches of that kind, but on the other hand bestowing praise when praise was due, and abandoning in expressions of loyalty to the crown and the Queen. Sir Oliver Mowat joined in this sentiment, and added, that while wishing to remain on the most friendly terms with the United States, and to trade with them to their mutual advantage and to have social intercourse with them as they often intermarried, and were of the same blood with ourselves, he spoke the same language, gloried in the same literature still Canada did not want to join the States, but on the other hand was prepared to stand by the British Crown, and were ready to risk their lives and properties rather than give up their British citizenship. So say we all will be re-echoed throughout the Dominion. Sir Oliver moved an appropriate resolution of devotion to Her Majesty the Queen which was seconded by Mr. Marter and carried by a standing vote of the House, the members joining heartily in the singing of the National Anthem.

ON A BICYCLE TOUR.

A CLERGYMAN'S EXPERIENCE WITH LONG, HARD RIDING.
Has travelled Fully 3,000 Miles on His Wheel—He Makes Some Reflections on the Benefits of the Sport, and Tells of His Adventures.
From the Utica, N. Y. Press.
The Rev. Wm. P. F. Ferguson, Presbyterian Minister at Whitesboro, whose picture we give below, will be familiar by sight to many readers. A young man, he has still had an extended experience as foreign missionary, teacher, editor, lecturer and pastor that has given him a wide acquaintance in many parts of the country.
In an interview a few days ago, he said: "In the early summer of '94 I went upon a tour through a portion of Ontario on my wheel. My route was from Utica to Cape Vincent, thence by steamer to Kingston, and from there along the north shore of the lake to Toronto and around to Niagara Falls. I arrived at Cape Vincent at 6 o'clock, having ridden against a strong head wind all day.

A young man, he has still had an extended experience as foreign missionary, teacher, editor, lecturer and pastor that has given him a wide acquaintance in many parts of the country.
In an interview a few days ago, he said: "In the early summer of '94 I went upon a tour through a portion of Ontario on my wheel. My route was from Utica to Cape Vincent, thence by steamer to Kingston, and from there along the north shore of the lake to Toronto and around to Niagara Falls. I arrived at Cape Vincent at 6 o'clock, having ridden against a strong head wind all day.
The Rev. Wm. P. F. Ferguson, Presbyterian Minister at Whitesboro, whose picture we give below, will be familiar by sight to many readers. A young man, he has still had an extended experience as foreign missionary, teacher, editor, lecturer and pastor that has given him a wide acquaintance in many parts of the country.
