left her. The degree of thankfulness felt by one who received such benefits as the above can better be imagined than described. Here are Mrs. Cotnam's words; "If you could only know or if I could but tell of the intense suffering which I have endured and the many sleepless nights I have spent in mental and physical agony, you would not wonder at the degree of thankfulness I feel for my restoration to health." Her

trouble was a continual dread to her, and for a long time prevented her from doing any work. Since using the pills she is as well as ever—or to use her own words—"fully restored." In this house hold Pink Pills are now looked upon as one of the necessaries.

As is the case with every good cause Pink Pills have much to contend with; superior articles have been placed on the market, and, though in appearance and color they may resemble the genuine, they have an altogether different effect on the system. The writer was once in a store when Pink Pills were asked for by a customer. The dealer hadn't them but said he had something "just as good." The public are warned against this just as good scheme which is too often resorted to by some store keepers. It should be borne in mind that Dr. Williams' Pink Pills are a specific for all diseases arising from an a shattered condition of the nervous forces, such as St. Vitus dance, locomataxia, rheumatism, paralysis, sciatica, the after effect of la grippe. loss of appetite, headache, dizzmess, chronic erysipelas, scrofula, etc. They are also a certain cure for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excess of any nature. Sold only in boxes bearing the firm's trade mark and wrapper (printed in red ink), and may be had of all druggists or direct by mail from Dr. Wil-
