A Word About BUTTER.

We have contracted for one thousand Tin Pails (with covers) to hold our Summer's Butter. They will hold 20 lbs. of Butter and will be supplied to our customers at wholesale price which we expect will be a mere trifle.

We propose shipping these pails of butter every week. This idea has been tested in different localities and proved to be a great success.

We are anxious to keep ourselves abreast of the times and recommend these pails to all our customers. It is less trouble for us.

GIVE IT A TRIAL. This method keeps the good butter separated from the poor stuff.

Put up good butter and we will be able to give a better price than before.

## Don't Forget

That we are operating the Woollen Factory. We will be glad to have you call at the Store with your Wool. We will weigh it for you, and then give you either the cash or trade next door. You don't require to go down to the Factory at all. Roll Carding and Custom Work taken in at the Store here.

Don't be misled by ridiculous Trade prices on your Wool.

None of the buyers here can give you the immense Range of Goods to choose from that we offer.

CALL AND SELL YOUR WOOL HERE. Satisfaction guaranteed.

From all four townships adjacent to this town come reports of fields having to be resown, and there is no end to the system. There is due either to these cause, or to the fact that the worm crop is eaten on sod. Young grasshoppers are out in millions in some places. We hope the much looked for rain may soon come and destroy these pests.
