Win. Gossline, Sec.
Rev. R. McNair, of Caledon place, is spending this week amongst old friends here. The genial clergyman is looking well, a trifle more rotund than of yore, and in win and healthiness has lost nothing by the years. He is now the head of the Provincial body of Independent Foresters, and his rise to this position in six years is a compliment to his executive ability. Court Durham having infatuated him, there is of course a warmer regard existing than usual between the mother court and her distinguished member. The H. C. R. This price will be limited except that of Geo. III and the parallel falls when it is remembered that for 11 years of his reign government was carried on by regency. She has passed 11 years more to her credit than Queen Elizabeth, more than Edward III, and 3 than Henry III, and she lives and reigns till fall, here will be the longest reign in English History and few there are to surpass it in any history.
But the length of the reign is not the chief glory. Never has the nation made such progress in material prosperity in learning, science and literature, and though those are not depending on her, her encouragement has often carried weight.

BRITAIN'S QUEEN.
Queen Victoria, celebrates her 77th birthday on May 24th 1896, and a statue erected in her honor recently is to the effect that she is good for several years yet. No reign in English History presents a parallel to hers as to its limit except that of Geo. III and the parallel falls when it is remembered that for 11 years of his reign government was carried on by regency. She has passed 11 years more to her credit than Queen Elizabeth, more than Edward III, and 3 than Henry III, and she lives and reigns till fall, here will be the longest reign in English History and few there are to surpass it in any history.
But the length of the reign is not the chief glory. Never has the nation made such progress in material prosperity in learning, science and literature, and though those are not depending on her, her encouragement has often carried weight.

ELECTRIC RAILWAY.—The meeting in Toronto last Wednesday of the Provincial directors, resulted in a company being formed consisting of Mr. McCracken, Vice Pres.; Dr. Robinson, Cameron, Meaford, Sec; and Mr. J. M. Roberts, of Dunnings Green. The route of the road was laid out and by-laws for its government adopted by the board. Mr. Row is to be managing director and submitted proposals from Miller Bros, a wealthy New York firm for building the road, but they required from the municipalities passed through, the granting of right of way secured by-law. This will not be sufficient. The secured the Act contains many provisions to safeguard the interests of the municipalities. Mr. Ledwith has been appointed to present the matter before the municipalities of Durham, Glenside and Beutick.
Notices must be given in some cases no time will be lost. The under-

A NEW LEASE OF LIFE.

HOW A CURBERLAND CO. N. S. MAN OBTAINED IT.

A Sufferer From Acute Dyspepsia and a Complication of Troubles Following an Attack of La Grippe—he was forced to Quit Business and was Hopelessly Discouraged When Help Came.
From the Anheist, N. S. Sentinel.

Mr. Chas. Tucker who lives about two miles from Lockport, is one of the best known men in that section. He is engaged in business as a holster packer, and dealer in flour and salt, and, in addition has a fine farm. During the past three years Mr. Tucker has been an almost constant invalid, being the victim of a complication of troubles following a severe attack of la grippe. Recently he has been reduced to his old time health and having learned that he gave the entire credit to Dr. Williams' Pink Pills, concerning which as much has been said through the press, a reporter interviewed him in the matter, and has cheerfully given his history for publication. Mr. Tucker said:—"About four years ago I had a severe attack of la grippe, which left a few troubles behind. I had for a number of years before this attack been a sufferer from dyspepsia, but following the la grippe it took a more acute form, and to add to my distress my liver appeared not to perform its usual function, so that my heart troubled me greatly, and there were as well other complications which had to be met. I had consulted several physicians, and had used a great variety of medicines, but I succeeded in getting no relief. At night, and as you will readily understand my condition became one of despair. My doctor urged me several times to give Dr. Williams' Pink Pills a trial, but I was so discouraged that I had in my mind left many medicines. However, more to please him than from any hope of beneficial results, I began the use of Pink Pills. The first beneficial effects I found was that the warmth and natural feeling began to return to my limbs, my bowels ceased to bleed, and the continued use of the pills my appetite returned. I slept soundly at night, and the action of my heart again became normal. I continued taking the Pink Pills until I had used in all fifteen boxes, and I have not felt better since. I do not work, and am particularly hard work, and was able to stand it with a strength and vigor which surprised me. I consider Dr. Williams' Pink Pills, not only a wonderful medicine, but also in the light of what my other treatment cost, the least expensive medicine in the world, and I strongly recommend Pink Pills to all in need of a medicine.
Dr. Williams' Pink Pills act directly upon the blood and nerves, building upon new and thus driving disease from the system. There is no other medicine due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored patients to health after all other remedies had failed.
I have had the Pink Pills sent to me by Dr. Williams' Pink Pills, and take nothing else. The genuine are always enclosed in boxes, the wrapper around which bears the full name of Dr. Williams' Pink Pills for Pale People." May be had from all dealers, or sent post paid on receipt of 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

CHILDREN'S AID SOCIETY.—Rev. Jas. Ledford, Owen Sound, addressed an audience in the Town Hall, on Friday the 29th inst. Inspector Campbell, P. D. H. C. R. is to deliver an address, and lecture from Durham, Mt Forest and Swinton Park will make a splendid concert feature. Admission free seats 2c each, others 20c. Children 10c.

A LARGE SHIPMENT.—The cry of hard times is not borne out by the shipment of cattle made by Mr. Arch. Hunter on Wednesday last. He shipped 27 head of fine beefers to Mr. Stonehouse, of Hamilton, averaging over 1600 lbs. each. This is a nice little sum for one farmer. The same day Mr. Brunst shipped 90 hogs.
WIND AND FIRE.—On Sunday last, a gale approached from the north, and in this district. Owing to drought everything was dry, and it needed only such a wind to fan it into a dangerous flame. In town the fire started the inhabitants about 3.30 p. m. The points of danger being on a crop of wheat and Young gas-shoppers are out in millions in some places. We hope the much looked for rain will soon come and destroy these pests.

THE CUT WOOL.—Whether this is the right name of the new pest troubling farmers we know not, but certain it is that it is cutting out fields at a great rate. From all four townships and on to this town come reports of fields having to be renewed. It appears to drive best on a crop of wheat and Young gas-shoppers are out in millions in some places. We hope the much looked for rain will soon come and destroy these pests.

ARE YOU ONE of those unhappy people who are suffering with weak nerves, starting at every sound, unable to endure any unusual exertion, finding it impossible to sleep? Ayer's Sarsaparilla and nerve compound. Feed the nerves upon blood made pure and nourishing by the great blood purifier and true nerve tonic, Hood's Sarsaparilla.
