### THE CAMPAIGN.

**HAMPDEN.**—A meeting was held on Thursday night by Dr. Landerkin's friends. Dr. Mearns, of Hanover, and Mr. G. McKechnie, of Durham, were the chief Liberal speakers. Mr. Allan had no representative, while Dr. Jamieson was represented by Mr. Klien, of Walkerton. This gentleman spent about 4 minutes out of the 45 allowed him, on the platform much to the amusement of the audience. Mr. A. Wenger and Dr. McLean, of Aytou, said a few words. The meeting was entirely pro-Landerkin. Mr. H. Byers made a capital chairman.

**HOLSTEIN.**—On Friday last Dr. Jamieson held a meeting here, and was assisted by Mr. Chas. Moffat. Mr. Wm. Lawrence was in the chair. Mr. Calder spoke for Dr. Landerkin, while Mr. David Allan spoke for his brother. A feature of the evening was the check Mr. Moffat received from Mr. Calder. Mr. Moffat had dilated on the splendid position of the farmer, and Mr. Calder read from an address of Mr. Moffat's, while he was master of the Dominion Grange, a strong indictment of the injustice the farmer was suffering from a policy which discriminated against him. The farmers' position is certainly not better now than then, consequently the audience plainly saw the difference was in Mr. M. Patrons were in a majority, this being one of the strongholds.

**MCCUAIG SCHOOL HOUSE.**—The meeting here was a Landerkin one in every respect. The speakers on the Liberal side were Messrs. Calder, Smith and Ramage. Dr. Jamieson had no representative, while Mr. W. L. Dixon took up the cudgels in an undaunted way for Mr. Allan. Mr. Dixon was unsparing in his condemnation of partyism and seemed quite unwilling to admit that even a grain of truth or right could exist on either side. Mr. A. McCuaig was in the chair, and gave some most sensible remarks on the principles underlying the choice of a candidate. After cheers had been given for the chairman and the Queen Dr. Landerkin received three hearty cheers, Mr. Dixon called for Mr. Allan, but the response could not be said to be a compliment to Mr. D's advocacy. However Mr. Dixon was a host in himself.

**Priceville, June 15.**—Dr. Jamieson's meeting here tonight, was addressed by himself and by Mr. William, of Simcoe, on his behalf. Mr. Chas. Moffat, of Glenelg, was present and gave the closing address. Mr. D. McNeil was in the neighborhood, and spoke for half an hour as an exponent of patron principles. Mr. G. McKechnie, was also allowed half an hour and did good service for Dr. Landerkin. Dr. Jamieson's Durham friends were out in force at least 20 being present, and a number of the band boys who had been at Irish Lake picnic were also present. Mr. Jas. Bradie was chairman, and good sense and the presence of some ladies gave an orderly meeting. Before leaving for home the band played some nice selections.

—At the great Baptist Convention held last week the following deliverance was passed:

Whereas, the Catholic Hierarchy, especially of Manitoba and Quebec, are making strenuous efforts to control the Federal Government, in order to enforce on Manitoba a system of separate Schools in which the Roman Catholic dogma will be taught by the Government support. Therefore resolved, that we in Convention assembled, the representatives of the Baptist Churches in Ontario and Quebec, again place on record our historic belief in the doctrine of the separation of Church and State. We stand for the equal rights of all citizens and believe that a national school system, free from any sectarian religious teaching, is not only the system based on equality and rights, but the one which is in the highest interest of the country. We protest against the State undertaking to provide for the teaching of the doctrine of any Church, Protestant or Catholic, and declare such an undertaking a serious intermeddling of the State beyond the sphere of its authority. We further express the hope that, in order to bring about unity and harmony in our national life, the day may not be far away when the Constitution of this country will be so revised that special favors shall be granted to no class or section of the people.

### REMEDIAL BILL AT AYTON.

At the Aytou meeting Dr. Jamieson and Mr. Cribbs, who spoke for him, failed to arouse any enthusiasm upon the trade policy of the Government. The audience could not be made to believe that the Conservative party, whatever it may have done for com-

mes, has looked particularly after the interests of the Canadian farmer.

Several persons were present who had evidently come to learn Dr. Jamieson's views on the Manitoba School question as at a former meeting he had refused, when asked, to state his position, but said that he would do so at his Aytou meeting.

The doctor, when persons in the audience forced the question upon him, said that personally he was in favor of National Schools but that he would not on the Remedial Bill, or any other Government measure, vote to put Tupper out of power and Laurier in.

While calculated to please every body this expression pleased nobody. Those in favor of the Bill said: "Well personally he is against the Bill and will only support the Bill if he must save Tupper and the party."

Those opposed to the Bill reasoned thus: "Personally he is opposed to the Bill, as we are, but is willing to throw opinions and convictions to the winds to save Sir Charles and himself and we therefore cannot depend upon him."

In thus endeavoring to sit upon two stools the doctor falls between them.

The people appreciate a candidate who does not fear to take the same position on every platform and tell the same story in every neighborhood to all classes and creeds, but cannot have confidence in a man who in one place says that no government will ever with his vote or consent 'step up' on Manitoba a System of Separate Schools that will be under the control of the clergy of any denomination, in other places that he "will give no pledge," in other places refuses to express his views or state where he stands and on another occasion says that personally he is in favor of National Schools rather than Separate Schools but that he will notwithstanding vote for the Remedial Bill if necessary to save Tupper from defeat.

The Reformers of South Grey are fortunate in having in Dr. Landerkin a candidate whose twenty year's record has proven to be always consistent and while he has not always been able to please every body (and what man can?) he has convinced friend and foe that his desire and practice is to act upon principle and to treat all classes and creeds with equal justice and fairness whatever the result.

### THE TIDE RUNNING

In favor of the Liberal Party all over the Dominion. There is no doubt of this. East and West it is all the same. The protective tariff which has sunk the country in debt—fifty dollars per head of our population whereas the United States debt only reaches fourteen dollars per head—which has driven the rural population to the towns or expatriated Canadians across the lines, and which has enriched a few great capitalists, combined and monopolists at the expense of the great body of the people, is fairly discredited. This much yanted N. P. has no longer the power to charm. It has no longer the colour de rose to its pernicious effects, and manufacturers themselves as well as their employees have protested against it. It therefore may safely be said, that the recoil has come and that next Tuesday the electorate will pronounce decidedly against the policy which has exercised so malign an influence in Canada for the last fifteen years.

Sir Charles Tupper is fully alive to the reaction which has set in against his policy, and as usual, has taken refuge in boodles as his last resort. His Government is charged with having passed an order in Council for the appropriation of \$12,000,000 out of the public funds, and the purpose of buying up railway shareholders and railway contractors from the Hudson Bay Railway Company. The charge has not been denied and the effects of this unconstitutional proceedings are already being seen in the quickened pace of Tory manipulators all over the country. The Conservative Press indeed says in defence that no money can be paid over without the consent of Parliament. Canada knows this right well to her cost on similar occasions in her past history, but the order in Council has been got up with corrupt intent to bribe the electors, so that when Parliament does meet a sufficient servile majority will be returned to push through the Order in Council.

**DISREPUTABLE TACTICS.**—At Corinth School last week printed circulars accusing Dr. Landerkin of signing a petition to free McGreevy and Connolly were placed in the hands of the pupils as they were leaving the school. This is contrary to the letter and spirit of the law besides being a low device to stab an opponent whom they are afraid to meet on a platform. What mean dodges shall we have in the next few days? Watch.

**HUMORS OF THE CAMPAIGN.**—Dr. Jamieson is being assisted in this campaign by Mr. Moffat, a gentleman supposed to be well read, and a good speaker, who was Master of the Dominion Grange, and who a few weeks ago, gave an excellent address before a Teachers' Association. To show how association with Tories has degraded him (in the eyes of the St. Mary's "Argus," at "least,") we append an extract from that paper. It would seem a prophet has no honor even out of his own country:—

"The next speaker introduced by the chairman as 'an entire stranger' was a Mr. Moffat from Grey who gave an exhibition of such blatant buffoonery as ever disgraced a public platform. By his efforts this contingent of the great Conservative party of which we hear so much boasting, and of which we see so many evidences of pride among its votaries, was degraded to the level of a low comedy troupe, and as the professed buff on a travelling company, his remarks were at no time taken seriously. The consensus of opinion among self respecting Conservatives was that the 'old man' had done more harm than good. The meeting closed at 12.30 a. m."

### LANDERKIN—BLYTHE Vote of 1891.

It will be of interest to give the vote of last election, though with 3 candidates in the field it is not much good to make a comparison from:—

—In South Grey the gentlemen opposing Dr. Landerkin do not take high flights. They content themselves with dodging around the corners firing a random shot here and another there, but seldom coming out into the open field. They have no great principles of public policy to advocate in the interests of their constituents and the better government of the country. Nothing. They are simply traders in political wares. The stock in trade of the Patron Candidate is the corrupt expenditures of the Government and seems to ignore the fact, that he, is the man who has uniformly supported by all his votes for the last fifteen years, that corruption and all that extravagance. His brother in opposition to Dr. Landerkin, the conservative candidate has much to say on the same plane about Thos. McGreevy's release from prison. Now he knows right well that the prison physicians represented to the Government of Sir John Thompson that Mr. McGreevy was very ill, that abundance of fresh air was necessary to his recovery that the opinion of the medical men in the House of Commons was asked upon this point and that those gentlemen rely upon the correctness of the testimony of the prison physicians, testified accordingly—Dr. Landerkin with the others. This sort of thing is done every day, one physician corroborating the finding of another, there being no evidence to the contrary. Dr. Landerkin simply did what any physician or any honorable man would do under similar circumstances and the Conservative Candidate knows this right well. It is rather surprising then that he should seek to make capital out of the kind-heartedness of Dr. Landerkin.

—Mr. Pettit, the Patron Candidate in Prince Edward, and supported by Mr. Haycock, says that, if elected, he will support the entire Patron platform, and would oppose the coercion of Manitoba. Here is a definiteness as to a policy. How different in S. Grey, Mr. Allan declares the tariff talk of the old parties is all humbug, and makes his trump card the smaller extravagances of the government. These are bad, but a statesman must not all the time be grovelling in the dust heap. A broader view is necessary.

**Result of a Neglected Cold. DISEASED LUNGS**

Which Doctors Failed to Help, CURED BY TAKING **AYER'S Cherry Pectoral.**

"I contracted a severe cold, which settled on my lungs, and I did what is often done in such cases, neglected it, thinking it would go away as it came; but I found, after a little while, that the slightest exertion pained me. I then

**Consulted a Doctor** who found, on examining my lungs, that the upper part of the left one was badly affected. He gave me some medicine which I took as directed, but it did not seem to do any good. Fortunately, I happened to read in Ayer's Pectoral and others, and I determined to give it a trial. After taking a few doses my trouble was relieved, and before I had finished the bottle I was cured."—A. LEFLAR, water-maker, Orangeville, Ont.
