After consulting two physical contention will not be known until the above. After consulting two physical contention will not be known until the above. An authority on the tobacco trade says did not occur until 1710, and in 1712 is June election returns are in. Although class and finding no relief, he settled that the bicycle has lessened the output of the manufacturers by 70,000,000 rigars annually. Chewers also find it inexpedient to use the weed in their rides, and many have even gone to the length of giving up the habit altogeth-

given up their Sunday performances, because the patrons who used to flock to of truth, although she was lying)them now pedal their ways into green "Yes, my dear; I told him to do it, so fields and over asphalt roads.

EVERYTHING FOR A WHEEL. The New York Sun has the following on the same subject: At a meeting of the Board of Aldermen the other day it was estimated that there were 250,000 bicycles in New York alone,and that they represented an investment of not less than thirteen and a half mil-

"How can the bicycle be responsible for hard times, when the m nay is spent just the same as it used to be; it's all in circulation: it goes into other pockets, that's all?" asked a Sun reporter

of a victim of the bicycle habit. "Oh, my son," he replied, "people save up their money to buy bicycles with. The average bicycle represents a lot of self-sacrifice on the part of the purcheser. Why, I know lots of young women who saved their pin money for nearly a year to enable them to buy bicycles for themselves. Well that money went formerly for theatre matineas, candy, soda water and such truck or it went to the riding academies.

BLOWED INTO BICYCLES. "The same with young men. They

blowing it in around town they put it into bicycles. They have changed the into bicycles. They have changed the direction of their personal expenditures, and the fathers who have bought bicycles for sons and daughters have cut down their own expenses, and so everybody has suffered some except the men who make and sell bicycles. That's how the bicycle is responsible for hard times."

A New Yorker now in the western part of the state writes: "I have made a discovery since I left home. It is not the silver ques-tion which has caused the financial de-pression throughout the country. It is the bicycle. I have talked with men one says his business has been nearly ruined by the cycle mania. \*A large bookseller, for instance, told me that he did almost no business, because, instead of reading as they used to do, everybody and his wife go bicycling every evening. He said that his magazine sales had fallen off one-half, and his book trade proportionately. There are 80.000 bicycles in use in Buffalo, and between \$2,000,000 and \$8,000,000 are invested in them in Rochester. A sewing reachine agent told me that his
customers failed to pay him because
they had spent their money in buying
