

TO THE ELECTORS OF SOUTH GREY.

Gentlemen, accept my heartfelt thanks for the generous support you accorded me at the polls on the 23rd of June. This is the sixth time I have received this signal mark of your confidence and esteem. Believe me, I am deeply sensible of this renewal of your abiding trust in me and in the principles I have always advocated. It is the highest reward a public man can receive or the people can bestow. I will strive to deserve this continued mark of your kindness by greater attention to the public duties it involves, I will eyer be mindful of your wishes and welfare and do my utmost to premote your advancement and happiness. In a word my motto shall always be Canada first, last and all the time I wish you all every success and prosperity and hope that peace, harmony and good will shall prevail among you and throughout the land.

I am, Gentlemen, Very faithfully yours, GEO. LANDERKIN. Hanover,, June 30th 1896.

Durham, Thur. July, 2 '96.

-We would join the "Witness" and other papers in demanding a census at once, taken in an honest way, that in 1901 we may be able to see just what progress the country has made under Liberal rule. The stuffing of the 1891 census has been proved, and if 1901 is taken honestly it may have the appearance of retrogression, while in reality real progress may have been made. Let us begin with a clean slate.

When Sir John McDonald came to power in 1878 he appointed a commission to investigate some of the acts of the McKenzie administration. The commission did its work, and instead of finding anything wrong as was expected, confirmed the good record o' their predecessors. The report was got rid of as quietly as possible. We would suggest that Laurier take a leaf out of Sir John's book, and we venture to believe a very different report will be forthcoming.

-We hope our friends, the enemy, will take stock of prices at present, that when Liberal rule gets fairly under way fair comparisons may be made. Note them all down, butter, eggs, cheese, eats, potatoes, wool, etc, It will be as well, too, to make exact notes of the national debt, the annual interest charge, and the like, and if a prepertionate increase of debt takes place without a proportionate increase of population, as under Conservative rule, why, "turn them out."

-The demonstration which greeted the Hon. Wilfrid Laurier at Montreal last week was unique in a time of unique demonstrations. It is estimated that 25000 people gathered to see and hear him, and the crush was so great that speaking had to be foregone, as danger to human lifewas imminent. No so such popular expression of political sentiment has ever been accorded to any Canadian Statesman, alive or dead. He is virtually a national hero, men of all ranks and parties uniting in paying him honor.

-The attempted steal of \$210,000 last session by the Soulanges Canal though Sir Hibbert Tupper urged its claim, for how much think you? Not tion on the Conservative managers,

-Sir Leonard Tilley, formerly Min i ter of Finance in the ministry of Sir-John A. MacDonald died last week. Sir Leonard entered public life as a pronounced Liberal and represented his native Province of New Brunswick for several years. In 1867 he did much in bringing New Brunswick peace ably and constitutionally into the confederation and became Minister of Customs in the first Cabinet of the Dominion. Though a Liberal in politics he came under the spell of Sir John and supported the N. P. Sir Leonard was strongly opposed to the liquor traffic, so much so that while Lieutenant Governor of New Rrunswick no liquors of any kind were used in Government House.
