effluent—is let off over the head of a
wall at the end of the chamber to a
wall at the end of the chamber to a channel at the other side; whence,

gathering speed again, it RUSHES TO A RESERVOIR from which at ebb tide it joins the Thames. The sludge passes through pipes from the bottom of the precipi-

tating chambers to another reservoir, whence it is pumped to the tanks in the sludge ships and conveyed to sea. it has 50 per cent. of oxygen, which it life of laziness.

Council has added two more ships to they are conveying some 40,000 tons of VIOLIN MAKING EXCLUSIVELY. fiction.

for painting, repairs, etc., and affording a lighter time for the men. These are sailors, and sleep on board, regular watches being kept, except one twenty-four hours in every seven days, when four hours in every seven days, when they are allowed off duty.

The discharging ground of the steamers is the Barrow deep, some miles beyond the Nore light. The deep is an unused channel, the north bound vessels taking a course considerably to the left The channel has been buoyed by the Blood means sound health. With pure, rien, The channel has been buoyed by the Blood means sound health. With pure, rich, Council, and no captain may commence healthy blood, the stomach and digestive RYCKMAN'S discharging until he has passed the organs will be vigorous, and there will be no North Knot buoy. The discharge is dyspepsia. Rheumatism and neuralgia will be quickly effected by opening valves in the unknown. Scrofula and salt rheum will disapvessel's bottom; the principle being much the same as that used on the sea-emptying life-boat—which, indeed, is but

an adaptation of the law that WATER FINDS ITS LEVEL the bottom of the tanks being built on a level with the sea. The valves are easily opened from the deck, and so quick is their action that the whole thousand tons can be discharged in seven minutes. Generally the time occupied, however, is longer, the vessel perhaps steaming ten miles while emptyng her strange cargo. The whiite wake of the ship is discoloured, gulls hover over it, and there among the

tumbling waves and the fresh breezees he sludge is gone. The mind can hardly grasp the fact hat a hundred million gallons of sewage pour down the huge drain to Barking every twenty-four hours. But if we think for a moment that this immense mass of sludge would, but for the ships, have been discharged into the Thames, between Gravesend and London bridge, and be washed backward and forward with the tides, and that this would be always going on month after month, we may begin to have some conception of the benefit

gained. KEEPING THE RECORD GOOD.

Why, asked the casual observer, did you shoot that tenderfoot? Because, replied the chairman of the Civic Federation, always glad to supply reasonable information, he would otherwise have died of consumption, and we are trying to have our town recognized as a health resort, you know.

Palmer—"You can never convince me that women will succeed in politics." Polk—"Why?" Palmer—"How are you ever going to keep them from talk-

A HIGHLY RESPECTED CITIZEN

Makes a Sworn Statement of the Cure of an Extremely Bad Case of Eczema. worth, to wit:

I, Wm. Marcham, of the city of Hamilton, county of Wentworth, province of Ontario, engineer, do solemnly de-clare that I live at 242 Catharine Is the One True Blood Purifier. All druggists. \$1. of age. I suffered most intensely from eczema for about two years and it covered my whole body. I tried several kinds of medicine, was in the city hospital for six weeks, and was told there that they had done all they could for me, and was discharged a year ago last December as incurable. After leaving the hospital I was under the care of a Hamilton physician for a length of time, but got no relief. So bad was my case that before I could lie in my bed I had to procure silk underwear, the weight of the clothes being unbearable. With the mercy of God and four bottles of Ryckman's Kootenay Cure I am now well and entirely cured of eczema. The medicine is a grand tonic and a wonderful blood purifier. I recommend it most highly. And I make this solemn declaration, conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence

(Signed) WM. MARCHAM. Taken and acknowledged before me, at the city of Hamilton, in the county of Wentworth, this 9th day of January, 1896. (Signed), W. FRED. WALKER, A commissioner for taking affidavits,

COTT'S EMULSION is Cod-liver Oil in condition to peof the most immediate use in the body, and to be of the greatest use. It is

tasteless; at least it has no fish-fat taste. It has a little flavoring in it. Hypophosphites of Lime and Soda are in it. They are always wanted in the body when Cod-liver Oil is wanted.

IMPORTANT NOTICE Assessment System. Mutual Principle.
Announcement is made of an arrangement for the amalgamation of the business of the Provincial Provident Institution, of St. Thomas, with the Mutual Reserve Fund Life Association, the largest association in the world The studge is precipitated by treating the sewage with lime and sulphate of iron. First, six huge cages catch depoirs, such as sticks and dead rats and sels, etc., in the great rushing sewers which drain London. This rubbish is burned in destructors at the rate of something like a hundred tons a week; then the black river of sewage is stirred in the proportion of 3 to the time she had used the second black river of sewage is stirred in the proportion of 3 to the time she had used the second black river of sewage is stirred in the proportion of 3 to the time she had used the second black river of sewage is stirred in the proportion of 3 to the time she had used the second black river of sewage is stirred in the propor of the twenty-seven feet wide sewer, which is probably to become a beautiful boulevard for Barking, one comes to the supplied of the twenty-seven feet wide sewer, which is probably to become a beautiful boulevard for Barking, one comes to the supplied to peck out his eyes.
