EDITORIAL NOTE AND COMMENT.

—Dr. Bonnar, of Chesley, the defeated candidate in N. Bruce, we see has been offered a chair as Professor of Anatomy in the Rush Medical College of Chicago, at a salary of \$4000.

—On August 11th 85 deaths from heat effects were reported in Chicago, while it was estimated that 1000 dead animals were lying on the streets of the city. New York was even worse the death roll in one day running up to 150, and doctors, nurses and ambulances all as busy as could be.

—How they do it in the States. Bryan was nominated for President a month ago, he was only formally notified of it last week. He announced then that at a future day he would formally accept. Again the President will be elected in November but he will have no official knowledge of it till next March. Such are specimens of modern political fictions.

—The struggle between Spain and the Cubans still goes on with indications that Cuba will ultimately be free. If the spirit shown by Gen. Maceo at his death is shared by his compatriots, they will not be easily quelled. He had won the battle, when a Spanish sharpshooter sent a bullet through his neck. He cried "I have won the fight! I am glad to die! Cuba! Cuba!"

—The speech of Bryan at New York at the formal notification of his nomination as Democratic choice for President was, if anything more than Prestigious his Chicago speech. In New York, the home, it may be supposed of the detested "Gold Bugs," in the east where he can expect little support this man by his oratory and magnetic presence has held captive large audiences whose applause has been freely given in the usual frantic way. Before the vote however it is expected a calmer view will prevail, and that view will not likely be in the interest of the free silver fallacy.

—The Bureau of Industries has issued the August Report on the Crops in Ontario, and shows that fall wheat has a large increase of acreage, but the yield only 16.6 bushels to the acre. Spring wheat shows a decreasing yield per acre over a slight increase in acreage, giving about the same total yield as 1895. Barley has a smaller acreage and a larger yield. Oats an increased acreage with smaller yield. Rye increased acreage, with same yield per acre as last year. Peas has an increase of 30,000 acres, and a crop of 3,000,000 bushels over that of last year, showing that this is becoming our staple crop in Ontario. Beans are not up to 1895. Hay and clover promise 40,000 tons over 1895 but still 1,000,000 tons below the average. Buckwheat shows an increase in area, potatoes a decrease and field roots a drop of about 3,000 acres. Corn is largely in excess of last year's acreage and the yield promises well. The Rainy River Country has the heaviest yield per acre in Ontario.

NORTH GREY.

The Owen Sound Advertiser has what may be called a "Snap" in the present election. The O. S. Times at the general election kept pounding away on the duty resting on all electors of supporting a candidate who was a supporter of the government, and the Advertiser takes great pleasure in reproducing its articles. Both candidates and their friends are now into the fight with extreme bitterness, and next Tuesday will decide the result. Mr. Patterson will, we hope, win. Some of the Conservatives were fair enough to desire an election by acclamation as all the other members of Mr. Laurier's government have been so elected. Besides the riding had just respect for a cause whose champion had just been removed by death it would have been the graceful thing to allow the cause the victory once earned. However they are quite within their right, and we cannot believe but that John Clarke's supporters aided by many Conservatives, will return a Liberal in John Clarke's place, especially when that Liberal is such a true and tried exponent of Liberal principles as the Hon. William Patterson.

A BARGAIN!

That eligible residential lot, at present occupied by Rev. Chas. Cameron is for sale, or will rent on reasonable terms. Apply on the premises or to J. P. TELFORD.

SCOTCH TOWN.

Mr. John A. McLellan and his sister, Mrs. E. Evans, spent Sunday in and around Boothville.

Mrs. Archibald Beaton is holidaying with her sister, Mrs. Brown and other friends in Bentinck.

Mr. Alex. Martin, of the 6th, was present with his many friends here on Sunday and attended service at the Centre.

Mr. John A. Graham leaves our midst to-day (Monday) to attend his duty at the Ritchie School where he is already hired for '97. We will all miss Jack as when his company a few hours is but a few minutes.

Messrs Frank and Thomas Sullivan in company with their sister, Misses Nellie and Kate, from Irish Lake, spent a few merry hours with friends in our Town.

Messrs Geo. Black, J.F. and Ed. Sullivan in company with Misses H. and A. Sullivan all from Pomona, were welcome guests with friends here on Wednesday evening last.

Mrs. Michael Henrick and children from Toronto, are at present spending a few weeks at her brother's, Arch. McMillan. Her many friends in this Burgh are pleased to see her familiar face among them as of yore.

Miss Annie Morrison has returned to Queen City last week. J. K. will give the candy sticks to some other one now.

Miss Sadie Black left for Brautford on Thursday last to remain for a time. No doubt Sadie will be quite at home in that vicinity as there are four of her brothers in that neighborhood.

Messrs Archie and Alex. McMillan are home for the harvest. They have been making timber down the country. Some good yarn can be had from Alex. now free of charge.

Mr. Hector McKinnon, of Pomona, is employed at the Central Hotel, Durham, and to our surprise was seen in a high top and down the big hill in your town on Saturday. Congratulations Brock.

We were sorry to learn of the death of Mr. John McPhee, of 16th con., Guelph, who died on Saturday the 18th inst. We express our sympathy to the bereaved family.

Miss Mary McLaughlin, from Fleisherton Station spent a few days at the parental home last week.

MAPLE GROVE.

Harvesting is now in full swing. Some of our neighbors are through cutting and are assisting some others that are not so far forward. The last rains have flattened much of the standing crops and made hard work for the binders. All kinds of grain are generally a fair average crop if prices would only look up now there would be no cause for complaint.

Mr. Robert McLanchlan has arrived at the Grove from Illinois looking well. His many friends are pleased to see him back. He reports hard times in the U. S. and very little employment.

Miss Maggie McQueen and Miss McLaughlin attended service at St. John's R. C. Church, Glenelg, last Sunday.

Archibald Carson, of Trone, visited Mr. D. Sinclair last Thursday. The sudden storm blew over his intended superstructure and he took his leave very suddenly. We trust he returned home in safety. Visitors to this section must be prepared for storms as they are very common in this section this season. In fact, Dakota may have to take a back seat if they do not let up soon.

Miss Mary Stewart visited her brother Archie one evening last week.

Miss Mary A. Conkey was a guest of Miss Flora Campbell this past week.

D. Sinclair and Allan McLean purchased a Maxwell binder last week from M. Chas McKinnon, of Durham. The agent set it up but it failed to work. After many attempts on the part of the purchasers to get started Miss Hazard happened along, took her seat on the machine and without a miss it has worked ever since. It might pay Mr. McKinnon to hire it lady as she is evidently an expert. Try it Charlie if you do not think the experiment too hazardous.

Messrs Donald Black, D. C. McArthur and Fred McArthur are expected to have a bicycle run on the Piceville Race Course about Sept. 1st if the harvest is over by that time. A good turnout of spectators is anticipated as this will be one of the events of the season in wheelmen's circles. We trust that the committee having the race in charge will have a clear track as this is all that is necessary to make it a success.

Result of a Neglected Cold. DISEASED LUNGS

Which Doctors Failed to Help, CURED BY TAKING **AYER'S Cherry Pectoral.**

"I contracted a severe cold, which settled on my lungs, and I did what is often done in such cases, neglected it, thinking it would go away as it came; but I found, after a little while, that the slightest exertion pained me. I then consulted a Doctor who found, on examining my lungs, that the upper part of the left one was badly affected. He gave me some medicine which I took as directed, but it did not seem to do any good. Fortunately, I happened to read in Ayer's Almanac, of the effect that Ayer's Cherry Pectoral had on others, and I determined to give it a trial. After taking a few doses my trouble was relieved, and before I had finished the bottle I was cured."
