

REVIEW AND GLOBE.

DAILY GLOBE. We are able this week to make an extraordinary announcement. We can furnish the Daily Globe during this session of Parliament for 50 cts. and for one month, if the session does not last that long. This will be a fighting session that long. Therefore get the fullest news, at once.

WEEKLY GLOBE. We will furnish you with the Weekly Globe to the 1st of January 1897 for 15c per copy and REVIEW for the same time for 40 cts. We will furnish both papers for the 1st of January 1898 for \$1.00. Those who have already paid for the REVIEW may have the same advantages on the Globe if desired.

Our subscribers need not be told of the excellence of the Globe which has no equal as a weekly newspaper even outside of politics. Moreover new features are to be added in a month or so, that will largely increase its value.

The REVIEW will be better than ever the coming year, and as a local paper will have no superior. We have to thank our friends for the generous support of the past and hope our efforts to supply them with local and general news at a very low clubbing rate will be appreciated in "hard times."

Mr. Blair, Minister of Railways was elected Tuesday in Queen's Sanbury by 500 majority. Mr. Laurier's Cabinet have now all been re-elected.

LOCAL AND GENERAL.

Have you read the article on Winter Wheat in 8th page?

SCHOOL OPENING.—On Monday next the Public School will be open in all departments for the fall term. The Model School is supposed to open on Tuesday but no results are out at time of writing.

BARN BURNED.—On Monday night last week the barn of Wm. Fitzsimmons, 4th con., Glenelg, was destroyed, with 4 loads of Peas, a wagon, new harness, and other articles. Lightning supposed to be the cause. No insurance.

A HOLIDAY.—We intend to take a printers' holiday by suspending publication next week. If the REVIEW does not reach you, you will know that we are moving into our new premises where we will be glad to receive friends and subscriptions.

A new feature of the Toronto Industrial Exhibition this year will be a free reading room established by the Canadian Advertising Agency. The REVIEW will be on file in the reading room for the benefit of any person from these parts who may wish to peruse its columns.

Candidates who intend writing on the Public School Leaving examination in J. J. 1897, would do well to clip out the following literature sections for their examination and paste it in their files: Session of 1897, V. To Duffield; XX, The Bard; XXXI, The Highland Girl; XXXIV, The Wife of St. Koyne; XXXVII, Dear Harp of Waits; XL, The Cloud; XLVI, My Country; XLVII, Horatius; XLVIII, The Hanging of the Crane; LXXIX, The Lord of Burleigh; LXXXI, The Iveye.

READER!—Many a former resident of Durham and the surrounding townships now resides elsewhere and enjoys the weekly visit of the REVIEW. Have you not a friend at a distance who would appreciate it? Do you send your own copy sometimes? If you do it will cost you 52 cents a year while if you more give us the address and 48 cents more it will leave our office promptly and regularly for 12 months. Or for \$1.25 we will mail both Weekly Globe and REVIEW for one year. See our clubbing offer elsewhere.

DAIRY SCHOOL.—We have received the prospectus of the Dairy School in connection with the Agricultural College, Guelph, Session of 1897. The school will reopen January 15th 1897 and remain in Session to the 29th of March, 10 weeks. The course includes two branches of the Dairying industry: Factory Dairying and Home Dairying. Factory Dairying with the latter will be a course of lectures on the management of Poultry. The course is free to residents of Ontario, a fee of \$1.00 being required which will be returned at the close of the course. The session will be a practical one and of great value to those who can spare the time.

THE GARDEN PARTY.—Eye and ear were charmed Tuesday night at the residence and fine grounds of Dr. Gun, when a very large concourse met under electric lights, that paled a fine moon, and spent a few hours listening to the fine music of the band and the equally fine harmony produced by piano and violin inside. Miss Gertie Sutherland is becoming an expert accompanist, and Messrs. Jones and Sutherland are skilled players. Tents and natty madens tables attended to by bright maidens dotted the lawn, while flowers in bouquets and nosegays of the Crawford family, in an artist in the effective arrangement he makes of the electric lights and to him and Bandmaster Fee much of the success is due. Miss Fraser, the photographer, had the weight of the work on her mind, and was gratified to find the handsome sum of \$37 realized. She had some willing helpers.

A "MODEL" SCHOOL.—We were much pleased the other day to have a peep into the School house of No. 1, Glenelg, taught by Mr. Wm. Dixon, one of our most successful teachers. The trustees evidently are a progressive set and believe in attractive surroundings for the youth of the section. They have had the school walls and windows of handsomely painted, and a general air of neatness pervaded, and a general air of these improvements, and Mr. Dixon in charge, progress mentally, morally, and aesthetically must be made. Mr. Alex. Firth was the contractor and the work done him great credit. School trustees would do well to pay No. 1 a visit.

MAYOR'S COURT.—Messrs C. Lawrence and Langrill were before Mayor Laidlaw on Monday charged with disorderly conduct on the evening of last Friday. The evidence showed and many citizens could testify that there was a riotous time. However, the Mayor took it is generally considered a lenient view, and imposed a fine of \$1. and costs!

Think It Over. Have you ever heard of a medicine with such a record of cures as Hood's Sarsaparilla? Don't you know that Hood's Sarsaparilla, the One True Blood Purifier, has proved, over and over again, that it has power to cure, even after all other remedies fail? If you have impure blood you may take Hood's Sarsaparilla with the utmost confidence that it will do you good.

Hood's Pills assist digestion. 25 cents. COURT DAY.—Much interest was taken in the case of Page, the wire fence man, who had three Bentinck farmers charged with infringement of the Crabb patent fence for which Mr. Page has the right. Judge Morrison held that his court was not competent to deal with the case, but still some evidence was taken. It is certain that stake and rail and wire fastenings have long been in use here, and if Mr. Page can establish a case it will implicate hundreds of farmers, and swell his bank account.

LECTURE ON MEXICO.—On Monday evening last the Presbyterian Church was crowded, seats and aisles, to listen to Rev. Mr. Dodds, a returned Missionary from Mexico. He preached in the Methodist and Presbyterian churches the day previous, and he evidently had aroused an intense interest in himself and his work. Rev. Mr. Pomeroy occupied the chair and for two hours or more the Lecturer poured out a flood of interesting information relating to "Montezuma's Kingdom." He is a fluent, clear, and voluble speaker, with an eye for the humorous, and never allows interest to flag. He touched on Mexican history, Geography, Soil, Productions, the people and their works, their habits, social customs, religion etc. etc. He had specimens of ancient idols with him, a horse bridle, with villainous looking knives, some fancy ladies' work, etc. He was dressed himself in a brown and leather costume with silk facings and bindings, and represented, with tall sombrero, a well to do Mexican gentleman. But the most interesting specimen was his adopted child, a pleasant little girl of six years and pure native. His business instinct was gratified by the best collection he ever received some \$15.00.

IN FAR AWAY UTAH.—We were pleased to have a letter from Mr. Rudolph Knold of Springville, Utah. He is recovering from the terrible accident he met with last May, while running an engine on the Rio Grand Western, east of Ogden. While running at the rate of 20 miles an hour, the boiler burst, killing the conductor and boiler man and severely injuring himself and fireman. He has not been able to do any work since. We sympathize with any work since. We sympathize with Mr. and Mrs. Knold in their suffering. Mr. Knold sends best wishes to old friends and adds "we can't get along without the old Review."

—We have seldom read anything finer than Mr. Laurier's reply to Sir Chas. Tupper in the House on Monday. We regret space will not permit a digest of a remarkable speech, in which the arguments of his opponent are torn to shreds yet with a wonderful absence of anything irritating.

Mr. S. Morlock and Misses Hattie and Jean Curran drove to Mt. Forest, Sunday last.

Dr. Thos. Kelly, of Omaha, and Albert Kelly, Toronto, came home on a brief visit last Friday and were guests of mother and brother John. The Dr. is looking well, and, we believe, doing well.

NORTH EAST NORMANBY. Mrs. J. McComb and family, of Fergus, are spending a month at her father's, Mr. E. Kelly's.

Miss Webber, of Bentinck, was visiting at her brother's, Mr. J. Webber, this week.

Mr. T. Gadd, Sr., has been under the doctor's care of late.

Mr. Donald Melville, who has been quite ill, with various fever, is, we are glad to see able to be about again.

STRANGE, IF TRUE.—Candidates in an Orange Lodge in Massachusetts have brought an action at law against the lodge for parading abuse while undergoing the initiation ceremony. Blindfolded, he was made to pass over rocks, lashed with whips, tossed in a blanket, had to carry a load of stones, and finally was branded on the breast by a hot iron. Six officers of the Lodge were fined \$35 each. All have appealed.

Merit Rewarded and Patronage Appreciated.

The Directors of the Western Fair, London, are the proudest set of men in this country, and feel that their efforts have been appreciated by the people of Ontario and adjoining States. There appears to be greater things still in store for them. The new Live Stock Buildings they claim to be the best on the continent from plans carefully prepared by the principal fair of America. They are so arranged that visitors can start at the Main Building and go the entire rounds, we may say, no difference whether it rains or not, and you once get there. This expenditure of money will no doubt be a big drawing card, and increase both the hits and patrons this year.

Notwithstanding this great outlay the Prize List has been increased some with the understanding that next year will find considerable advance.

Pawnee Bill's Wild West and Mexican Hippodrome has been engaged and will make a first class special feature, being one of, if not the very best, fair attraction in America at present.

Sie Hassen Ben Ali's Moorish Acrobats are also going to be there, and others are being arranged to be there, and fill the make a rousing day's sport, and fill the new double-decked Grand Stand to its utmost capacity.
