The bacteria be milk at this time, be sture of the milk favor peorbed by the milk fro occasionally coming from while it the satisfaction where the odors o what causes them, we d ome weeds eaten by the the milk, even if the an atmosphere fr It is also true that that could not has by food eaten. The taints caused by bacteria a able when the milking if becomes stronger the long On the other han duced by the food eaten pronounced immediately a As bacteria are living or (the temperature of the mi development and cold reta the sudden and immedial the milk checks the activit teria. The aeration, the the milk to the air, allow up the foreign odors to a The most practical method plishing this is where a thin flows over a surface cooled water or ice and water. I that use running water through in a direction opp of the milk, so that the and the coldest water are tom of the apparatus. W water are used it is neces next to the surface over milk flows becomes warm DEMAND FOR GOOD DRA

COOLING AND AEL

following is from a

There is always demand draft horses, and farmers courage and energy to ra the profit. Scotch farme been discouraged by the a cheap American horses, by cured the very best sires best heavy draft geldings to and are above all foreign and they are on the looks horses to mature at a goo does no good to sit down a They meet the competite prices with a better class The Scottish Farmer says affords to the open-minded erous openings for exercis ents and abilities. To the determined to be circumso ideas and aims, agricultur close corporation. Such shut himself up and see yond; but to the man wh there is in agriculture plei ook. These thoughts are s the really first-class exhibit stallions seen at a parish Glasgow within the past Many of the farmers in t have found it profitable good, growing young horse them always improving, an sell for city work. To farm ed of the requisite skill, w from 150 to 250 acres, the pre rived is an important add venue, and such have felt fits following on the excess tation of cheap horses from a is likely to be a temporary the gelding trade is still a

INTERRUPTED.

Tve jolted up against a hard-hearted and uncharitab my career, said the man with by silk hat; but about the v men I ever came across was ed on this afternoon. He tised for a gentleman of 1 tainments to act in a clerical and I called at his house to

Did he treat you rudely? was his silent sar wounded me. The servant t library, and, while my glance happened to rest canter on the sideboard. Th glass beside it, and, as both highly artistic pattern, I ma as to examine them."

You were quite alone? Of course I had set the down on the table with great as the gentleman came into then came the shock.

Had you spilled any? Certainly not. But he had miserable bottle up with on nusic-box arrangements whi tune whenever it is picked u own again. Just as I op ps to explain my errand it play, "Just tell them that you t confused me so much th up my hat and left will ing to explain, and the imper piece of bric-a-brac has sed me to lose one of the sitions I ever had open to m

NOT A LAI REPUR The Hon. W. T. Reeves, A eral for New Zeala td, in a London, declared the t the pass act giving a vote to every w ident over 21 years of age had productive of domestic disco cases out of 20 wives voted w husbands, or rather, he said, at the ladies present, husbar with their wives. Daughters always voted as their fathers theirs often for the same can ir brothers . nough in the l not speak so confident hen suffrage has been ir strut tions to the front, and bad
