

# The Grey Review.

Durham, Thur. Nov. 12, '96.

Monday last was the 55th birth day of the Prince of Wales.

Wheat continues firm and has passed the prices prevailing a few weeks ago which it was thought were due to speculation.

Professor Coleman, the mineral expert has made his report on the supposed anthracite coal found near Sudbury. He declares it not coal, but of some value as a mineral for local use.

Mr. Bryan has refused the offer of \$25,000 a year to manage a law department in a great departmental store. The refusal will count in his favor should he again become a candidate.

Lord Salisbury in his speech clings to the principle that Britain can not act alone in Eastern matters. All she can do is to co-operate with the other powers to prevent the Sultan from falling into the abyss to which he is hastening.

The Republicans are at work already planning for an increased tariff on Canadian agricultural products. The sooner we know their intentions the better, but it is clear it would be folly to approach them at present for any reciprocal trade arrangements.

The great Annual Show of Lord Mayor's Day in old London has taken place. The occasion is generally taken to make government announcements, and the Guildhall speech is thus invested with great importance. The gratifying news comes from Lord Salisbury that the Venezuelan question has been settled in such a manner that both parties can claim peace with honor. We think Britain on the whole has yielded a little, but an immense step has been taken towards an international arrangement between the two countries which will forever prevent bloody war.

CHURCH OPENING AT DAMASCUS.—The Methodist under the directions of their energetic pastor, Rev. J. W. Magwood, have erected a neat, comfortable and commodious brick church with basement and end gallery, seated with the latest improved seats, and lighted by elegant cathedral glass windows. The building is a credit to the community and the Methodist church. Sunday last was the dedication day. Rev. Dr. Williamson preached both morning and afternoon and Rev. J. C. Pomeroy, B. A., preached at the evening service. The church was thronged at each service. At the close of the morning service Dr. Williamson conducted the beautiful dedication service. On Monday night the dedication tea meeting was held from 6 to 8 p. m. The long tables well supplied with dainties were surrounded by the anxious throng. The receipts showed that about 400 partook of tea, after tea the audience room was packed in every corner and at 8 o'clock Mr. J. McMullen, M. P., took the chair and called upon the Arthur Mehoist choir to open the proceedings with music. After a brief and pointed address the chairman called upon Rev. Dr. Williamson, who stated that the cost of the church had been \$2,400, and that by subscriptions and Sunday collections \$1,500 had been provided, leaving a balance of \$900 to make provision for all cost of the church. The Dr. held the fort for two hours appealing to the people to respond, when he was able to announce that \$1,100 had been provided thus making up the \$900 and leaving \$200 for interest and unforeseen demands. As might be expected all were jubilant over the happy result. First class speeches were delivered by Warden Haupden, Mr. John Craig, M. P., P. P., Rev. Mr. Thom, Rev. Mr. Pomeroy and the pastor, who thanked everybody and felt supremely happy and contented. The choir tendered good service all through.—Mt. Forest Confed.

Miss M. Trengloss Stevenson sang Bishop's "Should He Uphraid" and "O Mio Fernando," her pure, rich and well-trained voice secured her a flattering reception. She sang as an encore "Jenny" very prettily.—The "Globe," Toronto, Ont.—At the Band concert with Fax, Monday evening.

### INSPIRING SCENES.

MONTREAL, 10th November, 1896. The office of the Family Herald and Weekly Star is doing a phenomenal business. The establishment is open day and night, and the work of getting out the paper and getting the names of new subscribers on the lists is taxing the enormous establishment to the utmost. The public are greatly interested in the scenes of activity at the Family Herald office. The increase in new subscribers is evidently running far ahead of all records. New machinery is being rushed in to meet the emergency, and altogether it is very clear that the Family Herald is doing an enormous business. The new picture, "The Orphan's Prayer," is taking the people by storm.

Our local sports left on Monday the 2nd on a hunting expedition. A report was current on Wednesday that they had shot a deer, but we have not seen it. On Thursday, one of our citizens stated that he had got a government situation, watching the hunters who hunted with out a license, and that the day before he made \$100.00 by the list of names he had of people hunting without a license.

[We are compelled this week to deny space for a lengthy item commencing in a tone of bitterness not suitable to our columns, on recent and current events in connection with Mr. McLeish, the Evangelist, and meetings held by him. We have never spoken to nor heard Mr. McLeish, but have heard good reports of his work, and do not suppose he claims to possess all the virtues, neither do we suppose the Latter Day Saints claim to be perfectionists, and if the two parties choose to meet on public platforms and discuss the issues between them, the public can go there and judge without a danger of being biased by a newspaper report. Ed. REVIEW.]

## GOD'S Greatest Gift to Man IS HIS VISION.

Don't strife with this precious gift by not heeding the dictates of nature. There is such a thing as wearing Spectacles when you shouldn't and not wearing them when you should.

When you first notice your eyes failing, or it seems a strain on them to read or do near work, consult an eye specialist—one that is permanently located and makes a specialty of the eye. This way you will have comfort, and save what money can't buy.

An Important Office.  
To properly fill its office and functions it is important that the blood be pure. When it is in such a condition, the body is almost certain to be healthy. A complaint at this time is catarrh in some of its various forms. A slight cold develops the disease in the head. Droppings of corruption passing into the lungs bring on consumption. The only way to cure this disease is to purify the blood. The most obstinate cases of catarrh cases of catarrh yield to the medical powers of Hood's Sarsaparilla as if by magic, simply because it reaches the seat of the disease, and by purifying and vitalizing the blood, remedies the cause. Not only does Hood's Sarsaparilla do this but it gives renewed vigor to the whole system, making it possible for good health to reign supreme.
