Sarsaparilla

districts, the report states that ordin-ary labor is paid \$2.50 a day and skilled labor from \$3 to \$3.50, but that the supply is already more than the demand.

THE WHITE METAL At the Half mines on Toad Mountain it is estimated that there are upwards of 120,000 tons of ore in sight. The ore concentrated into a matte, one ton which contains the product of eleven tons of ore. The average value of the matte is \$240, as follows:-Silver 270 ounces, copper 45 per cent., gold \$3 A large number of free muling gold claims have recently been loc-ated near Nelson. The smelter at Pil-Bay has stimulated silver mining in asworth subdivision since it comenced operating in March, 1895. The Slocan subdivision is another mining the discoveries in which were made in 1891. The mineralized area is about twenty miles inl ength by two miles in breadth, and notwithstanding the low price of silver it contains over thirty mines that are shipping ore. The men of Victoria, Vancouver, New gross earnings of sixteen of these mines s men of victoria, other trade cen- for the first six months of the present stminster and the other trade of year was estimated at \$1,500,000 about one-third of which is available for divi-
