Archbishop's Palace, Ottawa, Canada, Nov. 8, 1895. Hamilton, Ont.

My Dear Sir,-In order to comply with your request, I visited no less than twenty-six persons of different ages and conditions, residing in our city, who had used the medicine called "Kootenay Cure." Upon my inquiry, some informed me that after suffering was from Rheumatism, under one form or another, they had obtained considerable relief from the above named remedy, and were using it yet with the firm hope and almost certainty that in the near future all the painful effects would disappear. Others told me that they had been cured completely, felt no more pain could digest perfectly, sleep soundly, had regained their lost weight, so much so that they could be said to have been resuscitated and to have been transformed into new men. I met with five cases of Skin Diseases, where the medicine had produced wonderful results, especially in one case of at least nine years standing. In several cases of Rheumatism and Paralysis, eminent physicians, after careful study had pronounced the cases incurable. As Rheumatism is such a common ailment, and as doctors have always such difficulty in overcoming it, I think it s quite proper to make known such remarkable medicine to poor, suffering humanity. I am pleased to have the occasion of recommending it to the public of the Capital. Wishing you further success in your undertakings, believe me, sir,

Yours respectfully, EUGENE GROULX, Pr.
