

HOLIDAY CLEARING SALE

The time is short between now and New Year's and we are bound to improve it. When people enter our store these days, they have their eyes open: when they read the papers they don't forget the advertisements.

HENCE WE ADVERTISE—We make a display—**WE QUOTE PRICES** and we back up our statements by the goods mentioned every time. If we haven't the article you saw advertised, don't blame us: the quantity may have been limited and some one has snapped it up before you.

When people buy presents these days they consult the usefulness of the present every time. That's where we shine. Everything we sell is useful whether it is intended as a gift or not. The Store is bristling with bargains and your best plan is to shop early—and often.
