Good butter medicine must be taken, and one that making is the key note to successful is a solvent, and can thus dissolve the winter dairying, and it is a subject that demands much thought and earnest work. Not until you are willing to concede it these demands can you ever hope for any profit.

BREAKING IN A COLT.

A writer in the Country Gentleman gives the following sensible advice about breaking colts to the use of the harness: Just at this time of the year many a farmer has a colt that he intends to train for future use, either as Thousands Who Dread an Attack of Caa farm or road horse. Now the matter Horse Shoeing Shop, of breeding, transmission of disposition and traits is always of great influence over the character of the future usefulness of the horse, and will come out the colt. But by a proper fitting and skillful handling all these things may be overcome and a colt bred from stock.

bers of Parliament, the most prominent clergymen of the Episcopal, Presbyterian, Methodist, Baptist and Roman America. habits, are almost worthless, may be made a pleasant, safe, 'reliable horse. One of the most common mistakes is that of putting a colt into training while he is not in the best of flesh, and often when he is having but little, if any, grain. Such colts are seen drills by having this medicine at your hand. any, grain. Such colts are soon drill- by having this medicine at your hand. ed out and their nerve and muscle, of which they have but little is gone, and we soon have the beginning of balky of American presidents who were not horses, just because, while to appear- college graduates. ance they may have flesh and weight, PILES CURED IN 3 TO 6 NIGHTS. balky. The first thing, in my opinion, to do in getting a colt ready for the cruptions of the skin. 35 cents. training that is to make a horse of him, would be to commence the feeding of grain sufficient to get him in the best he feels full of spirit and pluck-so that

when taken out at halter you have your hands full to handle him. During this time of better feeding be sure each day to give him a good grooming, not only for the help it gives toward a better condition of flesh and nerve, but because of his learning by it to handle, seem of but little account to most men, few months you will be surprised at Do not go into winter dairying un-prepared and make your preparations afterwards. DEATH FROM SUFFOCATION.

Almost a Fatality But for Dr. Agnew's Cure for the Heart-Strange Story of a Northwest Lady.

A death to be dreaded is that from suffocation, and yet this is one of the usual phases of heart disease. Mrs. J. L. Hillier of Whitewood, N. W. T., came as near this dangerous point as need be. She says: "I was much af-flicted with heart failure, in fact I could not sleep or lie down for fear of suffocation. I tried all the doctors in this section of the country, but they failed to give me relief. A Local drug-gist recommended Dr. Agnew's Cure for the heart. I tried it, and with the result that I immediately secured ease that I did not know before, and after taking further doses of the medicine the trouble altogether left me. It is not too much to say that it saved my life.' For sale by all druggists.
