#### AN ESTEEMED JOURNAL.

FRIENDLY APPRECIATION OF THE WITNESS JUBILEE YEAR.

Under the above heading the "Cultivateur," the paper of which the Hon. Mr. Tarte is editor, publishes the following item: "The year that is now drawing near to a close will remain a red letter date in the annals of the Montreal 'Witness' as being the one in which the fiftieth anniversary of its foundation occurred. Since the month of December last the 'Witness' did not pass a single week without devoting at least one page every Saturday to the celebration of its Jubilee year, and the beauty of it is that the subscribers themselves have, in every case, furnished the elements for that weekly page. The historical or literary contributions of those occasional contributors were so much the more interesting that, for the most part, they referred to events contemporaneous with the foundation of the paper. If the public found a real intellectual treat in that original publication, the 'Witness' itself must have found in the feeling which inspired it and nurtured it every week, a very sweet consolation, that of knowing that it has the love of its readers, a love such as yet no other Canadian journal has been able to secure. That fact, now established beyond all doubt, is the greatest success which our worthy English confrere could have dreamed fifty years ago for its golden wedding of 1896. Only 60 cents with the REVIEW."

When a man asks an editor to suppress news he not only asks him to throw away a part of his stock in trade, but he requests him to violate his contract with his subscribers and the general public. This is a thing which no conscientious man will do. His refusal may possibly make a few enemies, but in the end he will lose nothing.—Exchange.
