

**LIBERALS MEET.**

**A Fine Gathering and a Fine Spirit.**

Tuesday morning was blustery and forbidding and town friends were predicting that the Convention would have to be declared off, but in spite of the storm a large number from the municipalities of the riding, gathered in the Town Hall, which was nearly filled.

Pres. Geo. Binnie was in the chair, and after the routine proceedings of minutes and reports, announced that he wished to retire from the Presidency. Mr. Binnie has served 10 years in this position and in a short address thanked them all for the courtesies they had extended to him, and bore testimony to the willingness of the executive and others to assume their share of the work. There are plenty in the riding worthy of the position of President and he thought the honor should go round. At a subsequent stage the thanks of the meeting were tendered to Mr. Binnie for the devotion and ability he had shown as presiding officer of the Association.

Mr. Jas. McLean moved, Mr. G. McKechnie, seconded that Mr. J. D. Morgan, of Dundalk be appointed Pres., and by a hearty and unanimous vote the motion was carried, no other name being mentioned. Mr. Morgan is at present suffering from La. Grippe and could not be present. Mr. Telford was honored with 1st Vice Presidency and Mr. D. McDougall, Bentinck, was re-elected to the second position. Mr. J. J. Smith was re-elected Secy. Treas. and the executive is as follows:—

Artemesia, Dr. Hutton; Bentinck, Jno. Milligan; Dundalk, Col. Graham; Durham, J. W. Crawford; Egremont, Walter Hastie; Glenelg, G. Binnie; Markdale, P. McCulloch; Normanby, R. Morice; Proton, Jno. McMurdo.

Messrs J. A. Hunter and Wm. Vair were appointed Auditors. This being the first meeting of the Association since the death of Alex. Taylor, Dromery, who was ever an active and useful member of the executive, it was felt that recognition must be made of the loss his death has been and is to the party. Mr. Wm. Calder, in moving the resolution of condolence which we shall print next week spoke warmly of the deceased's work, the value of his advice and enthusiasm, the influence he wielded, and his general public spiritedness.

Mr. Jas. Crawford, Egremont, seconded the resolution tenderly expressing his feelings in the matter, having felt the loss a personal one. Dr. Landerkin referred touchingly to Mr. Taylor's worth, and instanced many points in his life which were calculated to teach those left behind, and his removal in the vigor of manhood was eminently calculated to teach us "what shadows we are and what shadows we pursue." Mr. Murdoch followed, and few, if any have had closer personal relations with the deceased. Very feelingly did he bear his testimony to the worth of his old friend, who, he said, was a true man in every sense of the word. The resolution was carried by a standing vote, and will be duly engrossed and forwarded to Mrs. Taylor.

Dr. Mearns, Hanover, and G. McKechnie, Durham, were mover and seconder of a resolution of confidence in the administrations of the Hon. Wilfrid Laurier, and the Hon. A. S. Hardy. The report of their remarks and of the addresses that followed are deferred till next week, when we hope to present our readers with a stenographic report, kindly furnished us by Mr. J. Wilfrid Watson, Normanby.

Dr. Landerkin, M. P., and Mr. O'Connor, Q. C. were warmly received and their speeches much enjoyed. Mr. H. H. Miller, made a rousing address all which will be referred to next week. Votes of thanks to the Secy., Mr. J. J. Smith, for his unremitting diligence and ability in an arduous position, to the President, and to the speakers, followed after which cheers were given for the Queen, and for the leaders in Dominion and Provincial affairs, after which the meeting broke up.

A number of Conservatives took in the speaking.

**GREECE.**

Affairs in the east have "got a move on" all at once through the action of Greece. Turkey was about to land a military force on the island of Crete to subdue in her own peculiar way, no doubt, some internal uprisings against their barbarous rulers.

At the first intimation of this, without a thought of asking consent of the "concert of the big powers" of Europe, little Greece despatched a military force to keep the Turks from landing.

She landed her troops sure enough, amid the enthusiasm of the natives and in a very short time was getting everything in such order that Turkey was afraid to move until she got help.

And where was the help to come from? By all the Powers, (which seems an appropriate oath under the circumstances,) from those very nations who for a year and more have been ostensibly laying their heads together to check the cruelties of the barbarous Turk!

Several days elapsed before they could muster courage to act, but at last, one reads with shame, British and continental vessels have prevented by bombardment the landing of Grecian supplies.

It may be more ambition than mercy that actuates the Greek, but when one reflects on the barbarities, that have disgraced this century, one feels that the century is further disgraced by the civilized nations that would for any reason lend a helping hand to the Turks and that against this little Kingdom.

The fire of Ancient Greece may again astonish the world, and her action in this matter wins the approval of English speaking people everywhere.

The poor Armenians now know what "the Concert of Europe" means. Will it give them comfort? Armenia will look for help henceforth from God and Greece.

On Tuesday evening of last week Douglas Cameron and wife were at Mrs. Cameron's father about two miles from Holstein and on returning home, when opposite James Marks' something went wrong with the harness. The bride was attired in a lawn dress with orange blossoms, and was supported by her cousin Miss Jane Smith, while Mr. John Jack attended to the wants of the groom.
