> > SAVED HER LIFE.

MERCHANT'S DAUGHTER.

Mad Been Weak and Sickly From Infancy -Neither Doctor Nor Friends Thought She Would Survive-Dr. Williams' Pink Pills Saved Her Life-Advice to Parents.

Mr. C. M. Post, fruit and confectionery dealer, St. Andrew street, Fergus. An enelast week related to a representative of the News Record the sad story of the my stole it cost me for doctor bills made me poor as it was seldom she was without a doctor's care, and at times we have only a vagrant curhad as many as three doctors in attendance and hope of saving her despaired of. The doctors succeeded in keeping her alive, but she was gradually growing worse, and we all thought she was going to die. Our regular physician had given up hope of saving her life and remarked that if it were only warm weather, (it was then winter) there might be a chance. But seven summers had passed since her birth and she had gradually become feebler, and my wife and I thought it was just a matter of time until the child would be called to her home. About this time Dr. Williams' Pink Pills were prominently brought to our notice through a cure they wrought in a neighbor's child. I thought I would give them a trial and so informed the a box of the Pink Pills, and began giving them to her, half a pill at a time. After a short treatment there was such an improvement that neither her mother nor I could doubt that Dr. Williams' Pink Pills were helping her, and I decided to abandon the doctor's the progress towards health and strength was necessarily slow, it was none the less certain, and it was continued until she is as well and strong as you see her to-day, and I am thankful to say she has had no occasion for medical treatment since. I am a strong believer in the efficacy of Dr. Williams I've just expressed my opinion of Pink Pills, for weak and delicate chilmedicine that saved my child."
Dr. Williams' Pink Pills are an all-

round year medicine and are quite as efficacious in the case of children as in talk to that way. I suppose you are adults. They restore to the blood its lacking constituents and makes it rich, red and pure. In this way they strengthen the system and drive out disease. There are many cases like the above in which this wonderful medicine has restored health and strength Archduke Francis Ferdinand is one failed. The genuine Pink Pills are Toronto Junction.

FACTS WHICH SPEAK.

waste matter out of bolders, as in the case of the Famous Le Roy, offering only 100,000 shares, and now unobtainable the body they are under \$7.50 per share: and of the Great Centre Star, whose shares cannot be bought at any price damming it up in to-day; of the Siccas Star, selling \$2.50, and all the other big producers. Only one-sixth of

If a \$300,000 mine is over-capitalized, say for \$1,000,000, the chances for profitable investment are nil. But if a \$1,000,000 mine be capitalized for \$300,000, so much the better for the shareholder. The Ibex is capitalized for \$300,000. In such Slocan Galena mines as the Itex Group, which pay from the very surface, and are operated at a mere fraction of the cost of the sulphide cros, there is absolutely no excuse for throwing large blocks of stock on the market. Especially is this true where the mine has been brought past the risky and experimental "prospect" stage, and has been thoroughly developed and made a shipping mine before stock has been offered to the public. The Ibex of Slocan is a developed shipping mine. Hundreds of will purify the expert mining men with ample capital are already on the scene, and rich prospects are no blood. Nothing longer to be had for the picking up in any of the mining centres. The best kind of a mining investment is a developed shipping mine where big profits will accrue from increased value of the stock and from dividends. A fact worthy of mention in this connection is, that not one share of slock has been given away to the "Powers and Principalities" in order to secure ornamental names for the prospectus. There have been no "rake offs" in order to boom the stock. the owners considering it far too valuable to give away or to undersell for any purpose, The Ibex will be operated by the present owners. Time and time again they have been approached by the representatives of English syndicates, and asked to put a price on the property. Only one reply has ever been given: "That the Ibex is not on sale."

SMELTING RETURNS OF THE FIRST LARGE SHIPMENT OF ORE From the Ibex Mine of Slocan has just been received, showing the value to be eighty-five del lars and fifty-one cents—\$85.51—per ton. This is an excellent showing, the average smelting returns from Trail Creek mines being only \$35 per ton.—Revelstoke Herald,
