That the impurities which have accumulated in your blood during the winter shall be promptly and thoroughly expelled if good health is expected. When the warmer weather comes these impurities are liable to manifest themselves in various ways and often lead to serious diseases, unless the blood is rich and pure that is, unless the food you eat, your appetite will fail and you will find yourself "all run down." Hood's Sarsaparilla tones and strengthens the system, drives out all impurities and the system pure, rich, healthy blood. Hood's Sarsaparilla is the true blood purifier and the best spring medicine. Be sure to get only Hood's.

For a good and cheap stove go to W. Calder, lower town, Durham.

The Social evening of the Epworth League in spite of the threatening character of the weather was a success. A full basement greeted the eyes of the Social Committee whose Vice-Pres. is Miss Amy Wright. A lengthy programme occupied most of the time the remainder being filled up with friendly conversation. Many visitors and several from the sister churches were present. The young people of the Methodist church believe in universal brotherhood of humanity and also that these gatherings promote and spread the influences of the Christian religion. The collection was equal to the demand, that of procuring new hymnals for the basement. The tally was pronounced good and from the way it disappeared it must have been.

Editor Baker, of the Exeter, Cal., Penny Press, suggests an original simile descriptive of the newspaper man's relations to his constituency, which is decidedly apt, as follows: "A newspaper stands in relation to a town a good deal as a flag does to a regiment of soldiers. They are both directly in charge of one man, but the position they occupy—whether held high or trailing on the dust—depends very much upon the action of the larger body, the regiment or the town people. The standard bearer or the editor may be ever so brave and persistent, but if he have not a hearty support and backing by those others whose honor and ambition the flag or paper represents, then woe to them all."

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Hood's Sarsaparilla

Is the best, in fact—the One True Blood Purifier. Prepared only by C. I. Hood & Co., Lowell, Mass. Hood's Pills Do not purge, pain or grip. All druggists.

An exchange publishes the following pertinent letter. The question has an application this distinct also: "All about funerals. Who will answer them?"

Why don't rich people set an example of plainness so that people who can't afford the expense will not be considered lacking in that respect?

Why would it not be better to spend the money spent in flowers to feed the poor rather than a momentary show for the dead?

Why have singing at a funeral when usually there are few or no books and only two or three can join in song?

Why decorates the minister and pallbearers with crapes, etc., when a rosette on the coat is so much more convenient and neat?

Why don't undertakers keep themselves better posted as to the modern methods of conducting funerals?

Why don't undertakers have every thing in readiness to move at once when the service is over?

Why don't these outsiders who wish to see the corpse come and take the look before the services begin and not keep a crowd of people waiting in the cold after?

Why are some ministers so long-winded at funerals and endanger the health of man and beast by waiting so long in the cold?

Why will those who drive in procession persist in keeping the teams so close together that if it is necessary to stop, the whole procession is thrown into confusion and danger?

Why do people take off the hat at the grave in cold or stormy weather and run the risk of incurring sickness and possibly death?
