TURKEYS AND DUCKS. The turkey is the most industrious forager of all the poultry family. They pick up the greater portion of their food when given the range of the Hostess-Ah, M. Le Ministre, sit down farm, and when insects are plentiful they do no damage to the standing grain. Careful observers state, says an

turkeys do by destroying the grasshoppers and other insects injurious to the farm crops more than offsets the amount of grain they eat. The farmer should know that the difference in the large and small breed is an important matter, and keep nothing but the improved breeds, thus bringing the cost of production down to the lowest sum, and any kind of a building will serve for a flock of ducks in winter, but they

exchange, the benefits the flock of

when compared to the old foggy who thinks a "turkey is a turkey anyhow."

Ducks can stand the cold fairly well, should have board floors covered with dry straw, or, if they can be procured, leaves from the forest are to be preferred. Ducks must have a dry place at night, as they are soon injured by dampness. They are sure to die of leg weariness and rheumatism if kept on

Keep the hens in health by making them scratch all grain fed out of straw I'd paint the doors an' winders brown, all the medicines and condiments known to the poultry fraternity.

HOW MARKETING IS A SUCCESS.

This is a question in which all farmers who raise produce for market are interested. There is much more money in peddling from house to house than in selling to the markets and stores if one has the time and ability. Be in with your load before everyone In answer to the inquiry how to man- lelse gets around-"the early bird catchufacture cheese on a small scale for fam- es the worm." Endeavor to carry first. ily use Galen Wilson answers as fol- class vegetables and fruits and you lows in the New York Tribune: The will soon have regular customers. Peosubject is a pertinent one to discuss ple know a good thing when they see just at present. Cheese is a health- it. Always carry a good assortment of ful food when rightly made, and can produce-"variety is the spice of life." in considerable measure take the Have everything neatly put up and atplace of the more expensive meats is soon sold. Give courteous treatment

Make your motto a fair and square now. Our grandmothers made it then, deal for all, you will be sure to keep and knew nothing of "robbing" cheese customers. Endeavor to sell out; the by stealing away a part or all of the empty wagon is a great advertisement cream from the milk and "filling" its for you. Keep right in the business, be posted on prices, have your price a successful marketman.
