Editorial Note and Comment.

—A majority of 34 is very good. This was given in the House last week against Sir Chas. Tupper's amendment to the preferential features of the new tariff. No wonder his British friends are surprised at his position.

—The Baptist Convention for Ontario and Quebec was held in London last week. It was a most successful meeting, being largely attended, and the reports showed steady progress in all departments of Church work.

—The new Liberal Government of Quebec was sworn in last week, and will go for re-election on June 5th. It is the intention to have an Education Department on the Ontario System with a responsible minister at the head. Quebec's renaissance will attract much attention in the future. It has fairly begun.

Quebec, Eastern Ontario and Northern New York had the third earthquake of the season last Thursday at 10.15 p. m. This is the most severe of the three but no great damage is reported except to the nerves of sensitive people. Since the earliest French settlements, earthquakes have occurred every few years in this district.

—How does this read? from an old copy of the Dundalk Guide of Oct. 11 1877, "Hon. Mr. Cauchon has retired from the cabinet and Mr. Laurier has taken his place. He is one of the most advanced liberals in Quebec, and one of the most promising and able members of that section of the Dominion." We know that now by his performances, but they were good prophets.

—The government have completed the provision for the last link in the cold storage system by signing a contract with the Petersen firm for a fast Atlantic service. The Allans complain through the press that they have not been treated right and assert that the company will fail to carry out its contract. This is, of course a case of sour grapes. We notice some of the opposition press find, or seek to find even in this deal something to carp at. Let them examine. The proposal of the late government was for a fast passenger and mail line, this is to include cold storage as well. The cost of the old scheme was to be \$750,000 yearly, this is only \$500,000 yearly and the service is fully as good if not better even in the matter of speed. Again under a preferential tariff trade is likely to be much increased with the mother country with increased benefits to the Canadian consumer of British goods. No wonder sensible Conservatives welcome this hopeful and advantageous contract. Two of the four ships are to be ready for the season of 1899.

—The Orange Grand Lodge was in Session in Windsor last week. As will be remembered the meeting in Collingwood last year developed a strong opposition between Grand Master Wallace and Secretary Birmingham. This session sees Mr. Wallace and his faction completely victorious, the faction represented by Birmingham and Hughes being seemingly completely out of touch with the great majority of the delegates. Wallace is Grand Master by acclamation, Birmingham did not try for any office, and Lockhart of Alliston, is now Secretary. Major Hughes used some strong language in repelling fancied insinuations by Mr. Esery, and a breeze sprung up when Grand Master Wallace asked him to withdraw his language. He refused either to withdraw or retire and his appeal to the Grand Lodge showed the Grand Master's strength, his ruling being supported by 10 to 1. The expressions were withdrawn. Some resolutions reflecting on the Laurier Government and the School question settlement were promptly ruled out by the Grand Master, and the Grand Lodge supported him. Next meeting in Ottawa.

Sales Talk

With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than accorded any other proprietary medicine. This is simply because it possesses greater merit and produces greater cures than any other. It is not what we say, but what Hood's Sarsaparilla does, that tells the story. All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy

Hood's Sarsaparilla

Almost to the exclusion of all others. Try It. Prepared only by C. L. Hood & Co., Lowell, Mass. are the only pills to take with Hood's Sarsaparilla.

What we would like to know: How Mr. Fowler of Irish Lake liked the tea purchased in Pricerville?

If Freddie and Sandy will share up their candies next time?

Who Norman had in the cart?

In your paper of the 27th we read a report of a wedding held here on the 25th, but I can tell you that the parties who gave you the information are ahead of time. We are expecting a wedding here this week before your paper arrives.

We hear considerable talk about the Post Office here to be moved on the lot and our people do not know the cause of the change. One party here has come to the Post Office and made a written declaration that they were offered \$5 if they would watch and find out any fault against the P. O. Officials here.

The Council held a meeting and Court of Revision here on the 28th.

Alex. McEachern had his barn raised on the 28th.

The wet weather has prevented our farmers from finishing seeding as I write.
