

### GOOD FEELINGS.

Mr. H. Morice, Brantford, Honored.

A gathering of the employees of the Waterous Engine Works, Brantford took place lately altogether unique in character. There seems to be a most harmonious feeling between employer and employed, and to mark the occasion a beautifully artistic window was presented to the President of the firm by the employees. This over, the president called on Mr. H. Morice, (a brother of Mr. Jno. Morice, Normanby and an uncle of Ex-Reeve R. Morice,) who for 50 years has been in the employ of the firm and after reading an address couched in the warmest complimentary terms, presented him on behalf of the firm, with a purse of \$100 in gold. Mr. Morice replied appropriately, and was then faced by his fellow workman, who, to mark the unique event presented him with a gold-headed cane and a flattering address. Seldom is it that employers and employed unite like this to honor on the same occasion a half century of faithful labor. A few extracts from the firm's address is here given:

Dear Sir.—After fifty years of continuous service, it is but right and proper that some recognition of such a unique happening should be made. It is not necessary for your good name, that we should refer to you in any laudatory terms, for your uniform, upright life, your strict integrity, and thoroughly honest and unselfish devotion to what you conceived to be your duty, is "known of all men."

We know personally, that your life has been based upon the principles of honesty and self-respect, which caused you to love truth and therefore to speak it, to live it and to practice it, not from the hope of reward, but because of your belief in it.

Since coming to your place in this business, you have witnessed many changes, and have been an important factor in most of them. From a small wooden or frame shop meagrely and poorly equipped, the motive power supplied by a horse, you have seen it steadily rise until the present, home of industry, so well adapted to the increased business and its importance, has been reached.

Now, but we can hardly say unfamiliar faces, have replaced many of those whom you knew in the early years.

You have lived to see your family grow up respecting you, and respected by all who knew them; your sons and daughters occupying high and honorable places, not only in this, but in other lands, in fact, you have earned the right to be called an honest and honorable man, and what greater reward could a man ask.

C. H. WATEROUS.  
The address of his fellow workman, more touching almost than the employer's, we give in full:

Dear Sir.—The advent of your Jubilee year as an honored employee of the Waterous Engine Works company, is an event unique in the history of Canadian industry. On few men indeed, is such an honor bestowed. Your fellow-workmen rejoice with you in a half-century of honorable toil. We wish you many years yet of continued health and strength, and though to-day you are sitting near the west windows of life watching the sun set, we remember that a life spent in honest effort is the highest earthly reward that any man can seek. 'Tis better to wear out than to rust out. We ask you to accept of this gold-headed cane as a slight token of the esteem in which we, who labor with you, have always held you, and we trust that you may be long spared to go out and in among us in the past half century.

### ROCKY SAUGEEN.

Intended for last week.

Our Neighborhood is very quiet at present as the rush of garden parties, C. E. Socials picnics etc. are over and everyone settled down to their duties again after enjoying their holidays.

Mr. R. Grierson thrashed one hundred and fifty bushels of fall wheat in a few hours for John McKinnon one day last week. John knows how to make farming pay.

Misses M. Vessie, M. Turnbull and M. Eator were guests at the Masse, Dornoch, one day last week.

Miss Eator and pupils are again assembled in the academy at the foot of the hill with renewed vigor after their holidays.

Mr. John Vessie visited friends at Dornoch last week.

### ALLAN PARK.

Intended for last week.

Mr. W. J. Murdoch and John Whitford, left last week for Manitoba, where they intend to assist in taking of the big harvest of the Prairie Provinces.

The farmers of this locality are busy thrashing their Fall Wheat and Peas to make room for the spring crop. Bentinck will make up this year for the shortage of the last two years. Wheat crop from 30 to 35 an acre, in some places it was slightly damaged, by standing out in shock too long. Peas comparatively a failure, and will be below the average.

Mr. Robt Muir, of Keady, is home at present taking his holidays. Bob is not idle though. He is busy helping his father at the harvest. However a change of work is sometimes a rest.

Mr. Gates left off shoemaking this week to assist Mr. Arch. Hunter, who has a large crop to take off.

Mr. Willie Lann is engaged with Mr. McNaughton, of Normanby for an indefinite time.

Mr. Henry Byers, after a short intermission is again carrying the mail to and from Hamilton. We are much pleased to

see our genial old friend still active and cheerful as in days of yore.

We regret this week, to chronicle the death of Mr. Henry Collett, who died at his residence here on Tuesday evening the 17th inst. in the 65th year of his age. Mr. Collett was ill for considerable time, and all that medical skill could do was of no avail. His trouble was of an indurable nature. He bore his illness with much patience and resignation. He was a kind husband, a dutiful father and a most worthy neighbor. The deceased was an intelligent man and a constant reader. He was well known, not only in Grey, but also in the adjoining counties, as a master of the violin. His services in this line were always in demand. The funeral took place on Thursday afternoon to St. George Cemetery near Hanover. The Rev. Mr. Jennings, officiated both at the house and grave. A widow, four sons and one daughter, mourn the loss of the departed. The family has the sympathy of the community in their bereavement.

### BALSAM VALLEY.

Harvesting is in full swing in this locality and there are good prospects of a bountiful harvest.

Miss Maggie McCormack left for Toronto last week, she having spent a few weeks at the parental home.

Miss Mary McKeen spent a few days visiting friends in Durham.

A very pleasant time was spent at Arch Ferguson's last week, the time was spent in dancing and singing, until the reflection of the sun saw the departure of the crowd.

Mrs. Tedder of the township of Vaughan was visiting at Mrs. McDonald's for a few days and left for her home last week accompanied by her sister, Mrs. McDonald.

We notice Dave McIntyre wears a double smile since his return from Bentinck. We think there is some attraction out on the notorious hills of Bentinck. Dave says he will go out soon again.

Mr. Oscar Knould spent a few days with the Dow Bros. harrowing and threshing but had to come back to Balsam Valley over Sunday.

What we hear.

That the road is more level since the boys started smashing.

That Balsam Valley is to have an electric light plant next year.

That Mr. Haw will have to have a nightwatchman on pretty soon.

WISE MEN KNOW.—It is folly to build upon a poor foundation either in architecture or in health. A foundation of sand is insecure, and to deadly symptoms by narcotics or nerve compounds is equally dangerous and deceptive. The true way to build up health is to make your blood pure, rich and nourishing by taking Hood's Sarsaparilla.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache.
