RAILWAY MILEAGE OF THE WORLD.

How It Has Increased uring the Last Sixteen Years.

the railway mileage of this world nas during the last sixteen years inincreased at an annual average rate of 14,000 miles, and now stands at about 440,000 miles, says the Pall Mall Gazette. It will readily be inferred that in regard to length of track. United States is an easy first. At the end of last year it possessed 182,500 miles of steam railway, as compared with 176,229 in 1894. For the whole the office of United States District At-American continent the total is approximately 230,370 miles, South America boasting a trifle in excess 24,000 miles, Canada and Newfoundland 16,230, and Mexico and Central America the rest-a matter of 7,640 miles. In the whole of Europe there 29,240 miles. France coming second with 23.630 miles. The place of Great Britain and Ireland is fourth on the list. Our actual mileage in operation, according to the latest return of the Board of Trade, was 21,174 miles at the beginning of last year. after this country ranks Austria-Hungary with 18,960 miles, Asia, as a not stop for storms. They will keep consequence of activity on the TRANS-SIBERIAN RAILROAD

in British India and in Japan, which has recently had its railway mania, has in the last three years seen a remarkable increase, and the total now gales this winter, you will see men works out at 28,490 miles, against 26,- on White Pass. It is a frightful thing 670 miles in 1893. Of this total 19,700 to think of, but it is true, and these miles must be credited to India, 2,950 men should be stopped. I will miles to Japan, and 2,300 miles to Rus- not be surprised to learn of sia, the others being Dutch India, 1,260 many deaths up there this miles, Asia Minor, 1,100 miles, Cey- winter. tI is the most damnable rush Are Both Increasing in London- lon. THE FATAL RUSH.

BURTON F. BENNE T'S LESCRIPTION OF WHITE PASS SCENES.

Gold-Crazed Men Walking Right Into Brath - Horrors of Which the World Knows Nothing.

One of the most distinguished passengers to arrive in Seattle the other day on the steamer Queen from Alaska was Burton F. Bennett, who was sent north by Grover Cleveland to fill torney for Alaska.

"The world at large may not realize it," said Mr. Bennett, "but there are men up north! who are walking right into death. The snow is probably flying on White Pass, and if not soon will be. Many propose to winter at Skaguay, but from what I can learn hundreds do not propose to stop there nor will they return to civilization. They have the gold fever as no other body of men had it. Every time they hear of a strike in the Yukon country they get crazier than ever. They will not stop for snow; they will pushing over White Pass all winter. "I am satisfied that while the snow

is coming down in all its fury on the pass and the wind is blowing awful time that winter is at its worst some of them will be caught on White Pass. They will never escape.

"I am satisfied that those who remain at Skaguay this winter will be all right. Spring will soon be with them and they can start for the north. Once there they will all come back rich if they are willing to stay and work for a few years. There is gold in every body of water, big of little, in the Yukon country. Why, the people with all the newspaper talk, do not know what "From the letters I have received from the States, there will be 10,000 people in Alaska six weeks after the we have been fairly successful."

FIEND IN HUMAN FORM.

Three Days Without Food or Drink.

The town of Colgate, Indian Territory, is terribly excited over the discovery of the horrible cruelties inflicted by Wiley Ross on his bride of three weeks. She was found, about a quarter of a mile from the house, tied to a tree, in which position she had been for three days, and in all that time she received neither food nor drink from her husband, who had tied her to

The first ill treatment she received was some 10 days ago, when her husband tied her to a wagon wheel. After he had thus secured her he fired with a club. How long he beat her she does not know, as she mercifully became unconscious after the first few

The next outrage was to tie a rope around her neck and pull her up to

THE KHARTOUM EXPEDITION.

Reported Arrangement of Terms Between the British and the Mabdi to Further

the Advance The Paris Figure announces that a treaty has been concluded between Slatin Pasha, representing Great Britain, and Sobein Fasha, representing the Mahdi, by which the latter will not oppose the advance of the Anglo-Egyptian expedition as far as Khartoum, and Osman Digna's forces will Great Britain desires. The following are said to be the conditions upon which this treaty was signed:- The Mahdi remains King of Khartoum, and functions of Governor of Darfur, under the protection of Great Britain. Finally, The Figure asserts that the of King Menell's by guaranteeing the

A NEW NAME.

A Suggested Re-Baptism of the British

A despatch from London says:-A curious suggestion has been made with the object of emphasizing the union of the British Empire, and is meeting with considerable favor. The idea is that, in place of such distinctive names as Canada, Australia, etc., etc., the designation of "British Empire" should be applied to all the countries under British rule. Under this plan Great Britain proper would be known as
