

# SPOT CASH

Is the principle that rules this business, both in the buying and the selling. **Buying for Cash and Selling for Cash is the only way of doing business now a days, and its the man with the ready money who can take all his discounts who is going to succeed.**

Everything is pointing to a change, the price of everything the Farmer has to sell is going up. wheat is back to the old price. Everything is higher—except Dry Goods. They never were so cheap and we never before had such an assortment in all lines to show you. **Actions speak louder than words. So do prices and we will let them do the talking.**
