

NOTE & COMMENT

British bye-elections are running steadily in favor of the Liberal party.

Mr. I. B. Lucas, son-in-law of Mr. Richardson, Flesherton, is the Conservative Candidate for C. Grey.

A most destructive fire at Goderich the other day. The Grand Trunk elevator and a lot of lumber were destroyed.

Sir Wilfrid Laurier and Sir Louis Davies are in Washington this week in connection with Fishery and Seal business. Interesting developments are expected.

Much discussion is taking place on the necessity of establishing a mercantile agency in London to direct the course of Canadian trade so as to comment it to the British consumer.

A fearful storm on Lake Erie last Friday night caused the wreck of the steamer Idaho, off Long Point, only two of a crew of 21 escaping.

Russia, Japan and the United States have entered into an agreement to protect the seals from bad Canadian Seal hunters, who will persist in catching an occasional seal in the deep seas as they have done long before the United States purchased Alaska.

In the Greater New York election, the successful candidate never opened his mouth, no paper urged his claims, yet by the unscrupulous power of Tammany he was overwhelmingly elected.

Alas for human nature! Four members of a family, named Nutty, living in a remote spot in Quebec province were found butchered round their home.

SAFETY ON RAILWAYS.

A blue book, just to hand contains the Report of a Select Committee in reference to safety on Railways.

By a table we see that from 1886 to 1895, 2026 people were killed on Canadian railways only 781 of whom were employees.

The totals, killed and injured in each year are as follows: Kill. Inj. 1886 144, 571. 1891 106, 818. 1887 178, 633. 1892 233, 879. 1888 251, 776. 1893 216, 708. 1889 210, 875. 1894 211, 694. 1890 217, 838. 1895 187, 658.

The REVIEW will be sent to new subscribers to any address till Jan. 1st, 1900 for \$1.

THE NEW McINTYRE BLOCK.

This fine building, one of the finest in equipment and appearance to be found in any of our provincial towns is now approaching completion.

Its situation in the west side of Garafra St., and near the main corner of Lower Town places it easily in one of the best business districts.

It is a two storey brick structure on stone basements, having handsome stone facings on the front.

The dimensions of the block are 50 feet frontage by 84 in depth. The northern part 22x82 being designed for a store.

The floor of the back part of the store is raised a few feet, and from this, handsome stairways will circle to the commodious second story.

Upstairs above the bank, are found the rooms where bank employees sleep, and a set of offices both fronting on the street.

In the roof of the store part is also a large sky light, which lights not only the upper storey but the lower as well.

The bank premises and cellar are entirely walled off from the rest of the building.

The bank premises and cellar are entirely walled off from the rest of the building, and he must be an enterprising burglar who will get through these walls built with Ritchie's best skill.

Besides the bank furnace two others will supply ample heat it is expected for the whole building.

The disposal of the sewage has been arranged for in accordance with the requirements of the Board of Health.

We are obliged to Mr. J. H. Kilmer and the proprietor for the information we are enabled to give.

Agents sell "Klondike Gold Fields" like a whirlwind. Experienced canvassers reaping the richest harvest of their lives.

RAINY RIVER.

Mr. R. Watson, sr., received just recently a letter from his son Robert Jr., Fisherwood, from which we make a few extracts.

He says "We are all in good health and spirits and liking R. R. better as the months and years go by.

I had a letter from a prominent farmer in Egremont pricing the old farm. I have given him rock bottom figures and trust to be able to dispose of it shortly.

Bush fires have done good work for Tom and a trifle for his father. No damage done, no rain for two months.

You ask about the Gold Claim. It is all right so far but will require an outlay of \$200 to sink to a depth of 100 or 150 ft.
