# A CITY LUXURY

Just as the city looks to the country for most of the luxuries used on its tables, so the country must turn to the city for those conveniences which are justly termed luxuries for the hard-working housewife. City housekeepers have learned to realize that to save time is to lengthen life.

SAPOLIO!

is one of the best known city luxuries and each time a cake is usen an hour is saved. On floors, tables and painted work it acts like ? charm. For scouring pots, pans and metals it has no equal. IF YOUR STOREKEEPER DOES NOT KEEP IT YOU SHOULD INSIST UPON HIS DOING SO, as it always gives satisfaction and its immense sale all over the United States makes it an almost necessary article to any well-supplied store. Everything stanes after its use, and even the children delight ir asing it in their attempts as help around the house.
