## QUESTIONS.

The questions which come thronging to our minds in hours of great stress and pain seem unanswerable. Why should things be so harsh so unequal, so unjust? Why should those who do well suffer, and these who do ill apparently go unscathed? Why, for all our earnest and determined efforts.

Why do we fall into pain and trembling when doing right for conscience' sake? Why are we forever unsatisfied with our completed work? Why, when we feel that the conflict is too hard and when we sorrowfully determine to give up the struggle, does something always come to spur us up to fresh efforts? And why do we forever feel that,

however hard the fight for right we must fight it? Why do we feel that, whatever the consequence of the right action, it must be done? Why do we know, with a sure knowledge, that somehow, although we cannot understand why, it must be all right?

Now is the Time to Purify Your

Guard Against Danger.

During the winter, owing to close confinement, diminished perspiration and other causes, the blood has become impoverished and impure. In the spring the millions purify, enrich and vitalize their blood with Hood's Sarsaparilla. This is the greatest and best Spring Medicine, because it is the greatest and best blood purifier medical science ever produced.

ASYLUMS FOR INSANE.

The Sacred Temples of Egypt Were the First

The first retreats for the insane mentioned in history were the sacred temples of Egypt, where the highest development of moral treatment was practiced for the restoration of reason. One of the earliest notices of the establishment of an asylum for the insane is in the life of St. Theodosius, who was born in the year 423, and died in 529. He established, near Bethlehem, a monastery, to which were annexed three infirmaries-one for the sick, one for the aged and feeble, and the other for such as had lost their senses-in which all succors, spiritual and temporal, were afforded with admirable order, care and affection. In mediaeval Christian times conventual establishments were used for similar purposes, but with these exceptions there were no organized asylums for the insane until the founding of Bethlehem Hospital. This, the oldest lunatic asylum in the world, with the doubtful exception of one at Granada, was originally founded in 1247, as a priory in Bishopsgate, its mother church being St. Mary's of Bethlehem, or Bedleem in Wyclif's spelling. It is spoken of as a hospitparilla | al for lunatics in 1472, and as such it was granted at the dissolution to the Mayor and citizens of London, being incorporated as a royal foundation

That was a wise Montreal judge who the other day sentenced a pill pedlar to a term of imprisonment for selling a pink pill representing them to be the same as the widely-known and justly famous Dr. Williams' Pink Pills for Pale People. HIS OPINION. What are you doing, Jimmle ! Readin' th' dictionary through. How do you like it? Oh some o' th' words is good but

It is not generally known that Coffee and Cocoa are several times more expensive a drink than tea, yet many grumble when asked to pay more than 25c. a pound for tea. The agents for Ludella tell us that each pound of their popular 40c. Ceylon blend contains two hundred and seventy-five cups, or seven for one cent. They say a good tea has more strength than the cheaper grades, therefore goes farther, and again the freight cost of packing and growing are the same per pound on a poor tea as on a good one. This does not mean that 25c. Ludella is not good value, in fact we wonder how it can be produced for the money, but that the 40c. is better, and at such a small additional cost per cup, gives the consumer greater satisfaction in the end. This Ludella, which is having an enormous sale, is put in sealed lead package at 25, 40, 50 and 60
