> "The sanitary conditions in Skagway are very bad. There is no drain-VERY TERRIBLE

> thing, and nothing on earth could induce me to attempt to do any business in the town. While it is probably not contagious, the conditions that give it to one person will give it to another just as well."

> There is no doubt that the cold of the Alaska climate renders men eas-

ier prey to the disease. Up to the latter part of January the winter, from the Arctic Ocean to the Mexican line, had been exceedingly mild. Since then the Alaska coast has been constantly swept by icy gales, which have been destructive alike to life and property. During this brief period the Clara Nevada has been driven to her destruction in the Lynn Canal the Oregon has been blown ashore, other vessels have had minor accidents and many people have died at Skagway and Dyea and on the mountain passes leading out of those towns to the Klondike gold fields.

Strong indeed is the constitution that escapes ills in the northern regions at many thousands who have left Portland, San Francisco, and Seattle for the north since the first of the year, can truthfully say that they arrived at Skagway in perfect health. All complained of some ailment, cold in the head, stiffness of the limbs, sore throat backache, etc. The long steamer trip is not conductive to bodily comfort. Seasickness is anything but pleasant. and lack of exercise causes languor and failure of the excretory organs to do their duty. Scrupulous attention to the functions of these organs, is an essential in the treatment of cerebro-spinal meningitis, but whether it avails as a precautionary measure is

for doctors to say As the majority of the north-bound people come from south of the 50th would in our money. The amount which he parallel, they do not have any great difficulty in acquiring a cold after the steamer passes, the northern point of Vancouver Island and pokes her nose into the waters of Queen Charlotte Sound. In Alaska it is not considered good form to "kill" a cold with whiskey. The main reason is that whiskey

in the northern regions does

MORE HARM THAN GOOD no value. One drink of Alaska whisto him, and the third will cause him A recent investigation has shown to arm himself with a tomahawk and

> The sanitary condition of Skagway where there is no end of fresh air and unrivalled scenery, as it is in the mud flat called Skagway.

Exposure to cold in Alaska, especially when men know what the result will be, is due largely to carelessness. Men will hug a red-hot stove for hours It Is Officially Dented by the British and toast their shins to perfection and then venture into the icy wind with the hat on the back of the head, the coat unbuttoned, on the neck insufficiently protected.
