Three years ago I was stricken with and partially paralyzed by rheumatism, and after being under the care of two physicians, I was given up to die. I wasted to a human skeleton; nothing more than a crippled shadow. I lost the use of my limbs entirely and food was given me by a spoon. Life was not worth living and such an existence was indeed miserable. Thus I awaited the end to come -an end of human suffering too awful to depict. As a last resort I was persuaded by my friends to try medical treatment in the General Hospital in Toronto, and after spending several weeks there came home disheartened and even worse than before. While writhing in the pangs of pain, discouraged and ready to die, I heard of Dr. Williams' Pink Pills and of the marvellous cures they effected. While doubting that they would cure me I was prevailed upon to take them. The effect was marvelous.
