A Forced Sale in Wall-Paper

Our spring stock of Wall-Paper is now coming in and we find we have not room in our racks for it. We are therefore forced to clear balance on hand—put it at a price that will make it go—in many patterns we have just enough for one or two rooms. First come, first choice. If you don't need it now it will pay you to buy and keep for future use.

The union was blessed with 7 children, five of whom are alive, and these with quite a numerous array of grand and great grand children will celebrate the rare event. Mr. Kitching, his father and grandfather are all named John.

Hood's Sarsaparilla cures that feeling by enriching and purifying the blood. It will give you energy and vigor.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Cure all liver ills.

MRS. JOHN MCBETH.—Our obituary column to-day tell of the death of the above named lady on Friday last after a brief illness of about two weeks. Though not one of the earliest pioneers, she has been a resident of the township for nearly 30 years, having moved there with her husband and only son from the vicinity of Guelph. Left a widow 25 years ago, she was of that sturdy type of Scottish character which faces the world bravely, and her industry coupled with that of her only son as he grew to mature years was rewarded by securing a comfortable competence and home. Her son survives her and is the only immediate relative in this neighborhood. Needless to say he has the warmest sympathy of the community in his hour of trial as his fidelity to and care of his mother were always most exemplary. The remains were laid to rest in Amos graveyard on Monday, a very large number of neighbors being present. Rev. Mr. Campbell conducted the funeral services.

Miss Millie Ector left this week for Lacombe, N. W. T. where she has secured a school at a very remunerative salary. Miss E. will be missed at home, but good wishes will follow her.

A traveller in town the other day, who had just returned from a trip to British Columbia, stated that the Klondike gold fever was greater in Ontario than at the coast, where they all seemed more intent on catching "suckers" from the east than in getting ready for a trip to Dawson city.—Ex.

Mr. S. Scott's horse took it into his head the other day that he would like to go a little faster than usual, so while Miss Maggie Scott held the reins at the post office, he proceeded to do as he liked. The result is a smashed up buggy. Fortunately Miss Scott escaped without serious injuries. She jumped from the rig over near the station.

Mr. John Walters has resigned his position as fireman on this branch of the G. T. R. and is joining the great army going westward. He expects to take a similar position on the C. P. R., and the Cross Nest Pass Railway. His place has been filled by Mr. Everts of Palmerston. Mrs. Walters and the children will remain here for some months.

We give space this week to a letter from a respected correspondent regarding the result in the recent election. It was written about the middle of the month but did not reach us till Monday of this week. The writing of the letter at all was in questionable taste, and some of the statements are open to criticism, but we have neither wish nor words to spend time over it now. For instance, if "the Liberals, with Mr. Morgan as candidate, would not have received the Independent vote and consequently could not win." Much the same reasoning would show that the Independents with Mr. McSichol as candidate would not have received enough of the Liberal vote to enable him to win, though his conclusion "b" implies that he "probably" would. However, it is over the Liberals are defeated, and difference will exist, as in the case of the blowing up of the battleship Maine, whether the blow that defeated them came from the inside or the outside of their party. They are defeated but not wrecked and have gone into dry dock for repairs. That is all.

PROTESTS.—Up to Tuesday evening, twenty protests were entered at Os-good Hall, and it is likely there will be as many more. 12 of the twenty are against Liberals. The majority will not be decided for months yet.

—The question of the hour in politics just now is the action of the Senate on the Yukon Bill. This body is largely Conservative, and, to put it mildly, not uninclined to be obstructive. The measure passed by the Commons granting certain privileges to McKenzie & Mann to build a railway to Teslin Lake from a point in Canadian territory, is before them, and it seems certain they will throw it out.

If this is done unconditionally, it will put the work already done, and the country too, into confusion. If they carry it with certain modifications they may prove their usefulness. The grants are large, and may be excessive,—this we don't know. But we do know that the presence of an "American" named Livernask, for the plain purpose of "lobbying" against it virtually in the interest of American coast cities is a most unpatriotic spectacle. If this man's influence prevail, the representatives of the people will have to knuckle down to an alien influence. Will they do it?

The following story is related of the Mayor of Falaise.

It was dark in the streets of Falaise. The mayor ordered that every citizen should hang a lantern in front of his door.

But still the streets were no lighter. Then the mayor swore an oath and issued a proclamation that the citizens should put candles in the lanterns.

And still the streets were no lighter. Then the mayor swore a greater oath and issued a proclamation that the citizens should light the candles.

Then the streets were lighter.
