BROWNSVILLE.

The seeding around here is a thing of the past and good weather for man and beast, though not much growth, but we are having fine growing weather at present.

Mr. Ronald McDonald intends to educate himself in Gaelic, as he goes out to Pricerville to the service there. He was the guest of Mr. McNeil and Mr. McDonald of Pricerville.

W. McLeod gave a short call at Mr. Jno. McDonald's lately.

Mr. Dave Hinks accompanied by Miss Mary J. McLeod passed through here lately, enquiring the way to Fairhair.

Miss Tana McDonald is at present taking lessons in dressmaking at Holstein. When she gets her diploma, without doubt she will put up her sign here as there is a grand opening and a good country around.

There arrived at Neil Clark's lately a young son, all are well. Another liberal vote.

Mr. Dan Robertson is engaged with John Campbell to build the right kind of a fence, the work he has done is a credit to him, and Dan says there is a few more over there that should take me on for a week or two. The name of the fence is "Ahead of all."

Jack Smith is engaged with Mr. Backett our butcher to do the delivering. Right man in the right place.

Mr. D. McFarlane sold 5 head of cattle and 2 pigs lately for which he received a good price. A McDonald also sold a fine lot of cattle at the highest price.

ROB ROY.

The majority of the farmers around this part have finished seeding, but some have several acres to plough yet.

Mr. Charles Kennedy who had an attack of influenza is improving slowly, but we hope he may soon be around again.

The engine which was in the chopping mill all winter was taken away last week. It looked rather peculiar to some around here to see it moving off without horses.

Mr. John Livingstone, of Pricerville is our cream drower for this year, making only one trip a week yet as there is not very much cream. Wish you success, Jack.

Arbor day at our school was quite a busy day among the scholars, cleaning up the yard and planting some more trees which has made quite an improvement to the yard. Wonder what Mr. C. thought of it, we happened to see him taking stock of it the other evening as he passed through.

Mr. C. Firth's home was the scene of a pleasant event last Monday, when his daughter Miss Mary was united in marriage to Mr. Robt. Mitchell, of Toronto. The young couple were accompanied by others drove to Fiesherston where they took the train for their new home in the Queen City. We wish them a happy and prosperous journey through life.

PRICEVILLE.

Again the pleasant month of May has made our fields and forests green. How beautiful it is on this pleasant morning to listen to all the lower creation each in their various forms singing as it were praise and adoration to the great Giver of all good, who has relieved them from the cold bondage of winter, and now as they are once more freed from the prison walls of bitterness, they go forth shouting with joy each in his own language telling others the story of their freedom. The little boy leaps with joy because he can now lay aside his winter boots and is privileged to wear his birth day shoes, whose soles are tanned by coming in contact with every obstacle that comes in the way of the wearer. The pleasure seeker can now enjoy himself to his heart's content. The wheelman can now go at the rate of 2.40 and finds out that the highways are ways of pleasantness, and that his pathway is free from any obstruction that might prevent his progress onward.

The busy hum of the season is about over and the number of the tillers of the soil can rest on the main for a few days as an interval between seeding and potato planting and turpentine sowing. Mr. Malcolm McLellan says he plowed, sowed and harrowed with one team of horses sixty-five acres of land this spring, this is certainly big work and were it not that we can rely on Malcolm's statement to be true we would be doubtful. We would infer from the above fact that Malcolm does not spend much of his time attending to other matters of necessity preparatory for to make his happy.

The first raising of the season was at Mr. Hinks, South Line, Glenelg, on Friday of last week. Rev. Mr. Humphreys and Dr. Hinton were on the stand, the former's presence in his official capacity suited the spiritual wants, while the latter was in readiness to attend to the bodily needs of those endangered to accident. The Dr's immediate presence came in well as one fellow, D. McDonald South Line, Artemesia, received a crack in the head from a piece of falling timber, causing a deep gash, the Dr. dressed the wound and we hear the fellow is getting along well. Instead of the usual frivolity generally carried on at night in such occasions, this turned out to be a prayer meeting as the close of the days labor.

Next Sunday Rev. Mr. Matheson, pastor of the Pres. church here will conduct service in Gaelic and English. Gaelic at half past ten and English at 11.30, so as to give both parties the privilege of hearing the both languages every Sabbath during summer at least. Mr. Matheson will have to preach four times every Sunday. Some of the old heads are predicting the new movement to be the downfall of the Gaelic language, but we hope that their predictions may prove erroneous and that all those who will understand the beautiful language will honor the service with their presence every Sabbath morning, to listen to a good discourse from an earnest speaker in their mother tongue.

Mr. Waite is fast passing away, and by all appearance the hour of his departure is not far away, he has not taken any food for three weeks.

Old Mrs. Wright has been poorly for some time and is able to be out of doors.

We are pleased to see Mr. John Campbell of the North Line able to be out again after a severe attack of sickness during the greatest part of the winter.

Mr. Humphreys (Rev. Mr. Humphreys' father) arrived directly from England a few days ago. The gentleman is quite hale and fresh looking after coming from the old land.

Sydney Blakestone who received injuries a month or so ago is home to Pricerville and is staying with his brother W. J. Blakestone. He is getting along well and will be all right again in a few weeks. He says his escape was a miracle as four men along side of him were killed instantly in the fall.

We notice quite a change in the last Review, it has the latest modern improvements which add greatly to the appearance of the paper.

Robert McGowan was in town on Sunday last. As it wasn't a business day we don't expect that the effect of his visit was of such a character.

According to reports we expect to be able to chronicle a marriage in our next. The gentleman belongs to the Masonic order and a resident of our town, while the highly respected lady's home and birthplace is on the South line somewhere.

ZION.

Our worthy pastor, Mr. Ferguson, is daily gaining the confidence of his congregations. On Sunday the 15th he preached to a full church, from the words, "and they helped one another." During his discourse he gave many a hard bit, and we have no doubt that many an arrow went home. Mr. Ferguson announces that on the 22nd of May he will read the rules of the Methodist Church and hopes to have a crowded house.

We are sorry to have to report the sickness of our miller, Mr. A. Goodfellow. Hope to see him around again soon.

Mr. Thomas Smith is gradually improving in health and enjoys driving the mail these warm days.

Mr. Edgar Reynolds is hired with Mr. George Blair for the summer months.

Some of the boys are wondering if the west end bachelor is about to take to himself a wife, he is fitting things up so.

Hugh Firth the fence builder has finished the church fence and everybody says it is O. K.

ROCKY SAUGEEN.

Rev. Mr. Little and Rev. Mr. McKenzie Chesley exchanged pulpits last week.

Miss Ada Middleton who has been for the past 12 mos. in Rochester returned home last week.

Mr. Rich Banks lost a valuable cow last week.

We feel sorry this week that we are called upon to chronicle the death of Mrs. Quintin Campbell who died on Monday afternoon about four o'clock. Death resulted from a runaway on the previous day.

On returning from the Presbyterian church, Durham, the horses took fright and became unmanageable, throwing the occupants from the vehicle. Mrs. Campbell's little grand daughter Bessie Milligan had her arm injured also. About three years ago the husband and father lost his life at the barn raising on Mr. Bowers' farm and a few weeks ago the family was called on to give up the youngest member of their family, namely Kate, and now their mother has passed away. Deceased was about 67 years of age and was one of the pioneers of this township.

The remaining members will sorely miss the kind and loving mother who cared for them from their infancy. Her surviving children are: Mr. John Campbell of Assiniboia, Mrs. T. Miligan, Mr. M. Campbell, Mrs. T. Terry, all of Benituck. The funeral took place yesterday at the Saugeen Cemetery. Rev. Mr. Jensen conducting the funeral service. We are glad to know that while here she led a christian life and we believe now that she rests from her labors and her works will follow her. The family have the entire sympathy of the whole community.

Rheumatism & Dyspepsia Curd.

571 St. Patrick Street,

OTTAWA, July 31st, 1896.

To the Phenoline Medicine Co., Ltd. Ottawa, Ont.

GENTLEMEN.—On the advice of a friend tried one bottle of your famous rheumatic remedy, Phenoline, and to my surprise it cured me of rheumatism, from which I have suffered for many years.

It also cured me of dyspepsia, from which I was suffering at the time, so what I feel now like a new man.

I have tried several remedies for rheumatism, some of which did me a certain amount of good, but nothing that I have taken has done so much for me as your Phenoline, and I have much pleasure in recommending it to other sufferers.

Yours very truly, (Signed) JAMES CARROLL, Foreman of Works, Rideau canal. Only by H. PARKER, Durham.

AN IMPORTANT CURE.

Atwood, Sept. 28th, 1896.

J. M. MacLeod, Goderich:

Dear Sir.—I beg to apologize for not writing you sooner to thank you for the marvelous cure effected through you. In December, 1893, I injured my knee. Two weeks thereafter I was obliged to have a doctor. I doctored all winter. From the first of May, 1894, I was confined to my bed for seven weeks. I had no rest day or night for some time. I got so thin I became quite helpless. The doctors had a consultation over me, and said that if they could save the leg I could never have the use of my knee again. An operation frightened me, and it was then my husband took me to Goderich in a very helpless condition. I took your System Renovator for my system and to build me up and applied E. A. McLennan's liniment as recommended, which you kindly applied when I couldn't do it myself. I remained at my brother-in-law's in Goderich for about five weeks. In about a week I was able to walk with a staff. The Renovator gave me an excellent appetite and I gained considerably in weight as well as in strength. My knee is quite supple and as well as ever it was. It gives me unbounded pleasure to state that I have been able to attend to my own household duties ever since I came home. My husband joins with me in tendering you our sincere thanks. Gratefully yours, MRS. JAMES STEVEN, Sold by H. Parker, Druggist, Durham.

RUNAWAY.—A FIRECRACKER Monday last a son of Mr. Wm. had a horse tied at Aljo's blacksmith shop, while school boys were at home, some of the boys were carelessly fired some off. The became alarmed and breaking the rope dashed up the street, turned a review corner and down the back dashed through Charter Smith's wire fence, where he got free horse and buggy. He made a dash at the fence, and was so badly up that 13 stitches had to be put. A sharp lesson is needed where will not refrain from using these explosives on the street. A runaway always a danger to life.

A DOUBLE AFFLICTION.—Mr. Ferguson, eldest son of Thos. Ferguson whose lamentable death is recorded this week's Review, came home to Manitoba late on Saturday night, and to attend his father's funeral, and to relate, barely in time to his wife alive. She expired Sunday morning, quite unexpectedly, she has not been well for a week two back and a second time the fat have been plunged into sorrow.

ceased was a daughter, (Mary Jane) the late Isaac Haas, and was married Mr. Ferguson only in last May. Coming at a time when hearts were tender with a deep grief this is deplorable, and to the young husband suddenly been cut short, to the mother and sisters and brothers who have a loving gentle and affectionate daughter and sister, the deepest sympathy go out. Having an interest in both old pupils, we join sincerely in feeling.

CHANGED COATS.

A Funny Railway Incident.

The railway official who comes in contact with the public has no sinecure. Not merely must he, however weary, keep his temper, but he must have the entire system at his fingers' ends, so to say, in order to answer the enquiries which are put to him all day long.

The other day a gentleman walked into the office of Mr. Miller, the Windsor station agent, wearing an overcoat which seemed, in comparison to the man who was wearing it, to have been originally intended for Tom Thumb.

The gentleman weighed over two hundred pounds and the coat came barely below his waist. It never thought of meeting across the breast; while from behind it permitted the comprehensive view of his under garments.

"Say, what am I to do with this thing?" he observed, twirling himself round. He was plainly disgusted with his appearance. Mr. Miller saw the humor of the abbreviated coat tail, but gravely asked what it meant. "Well, it means that some fool in the train there has taken my coat and left me in its stead. The color and make are precisely alike; but think what he has left me. Get on to my style! Why, I am liable to be sent to the penitentiary; my wife will fail to recognize me; I am a lost creature." He whirled round once more and the office boy stuffed his handkerchief in his mouth.

Mr. Miller promised to make enquiries along the line. He did so. A wayside station agent reported that a man had been seen in his district wearing a coat which folded several times around his body, and in which he presented the most absurd aspect—calling forth the rebaldy of the small boy. This person was communicated with, and acknowledged that he had got a wrong coat. He was told that the man who had his coat had been discovered. His answer was, "Be sure to get my coat before I am asked to part with this, for two coats are better than none." The man who first complained telegraphed—"Be sure and get my coat before I am asked to part with the coat I have got; half a coat is better than none." Exchange was made in due course, and all was well.
