The Model Store of Durham Lower Town

COUNTY COUNCIL.

For the first time in its history the Co. Council met outside of the County town, assembling on Monday of last week in Meaford. Matthew Richardson, Esq., the Warden, took the chair at 7 p. m., and briefly addressed the Council referring to the improved prospect to the husbandman as a result of the refreshing showers recently fallen. He hoped the Council would have a pleasant and satisfactory meeting. At this juncture the Mayor of Meaford, Dr. Hammill, came forward, and read an address of welcome to the County Council, to which the Warden briefly replied. He afterwards appointed a Special Committee to whom he referred the Mayor's address of welcome, that a suitable reply might be drafted. The Roll was called by the Clerk, when all the members responded to their names.

The Co. Treasurer's estimates for 1890 were presented, and communications read as follows: from Col. Telford asking supplemental grant to 31st Batt.; from Artemesia asking to have work done on townline between it and Ephraim; from O. S. Board of Education asking to appoint a trustee in place of Geo. Inglis, deceased; from Mr. Jas.

Well Children

that are not very robust need a warming, building and fat-forming food—something to be used for two or three months in the fall—that they may not suffer from cold.

SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites of Lime and Soda supplies exactly what they want. They will thrive, grow strong and be well all winter on this splendid food tonic. Nearly all of them become very fond of it. For adults who are not very strong, a course of treatment with the Emulsion for a couple of months in the fall will put them through the winter in first-class condition. Ask your doctor about this.

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper.

sundries for repairs to County Buildings; from Christie Bros. for \$20.97 for sundries and work at County Buildings; from the Sun Printing Co. for stationery for Clerk of the Peace, \$6.25; from Advertiser office for several advertisements for Court sittings, amounting to \$23.34 in all; from the Times office for \$2. for advertising June meeting; from H. E. Glendinning for \$35. for printing Limit Table for public schools in the County; for County Clerk, postage, etc., \$7.50.

A Toronto gentleman offers money to municipal councils at 3 per cent.

The special committee appointed to prepare a reply to the address of the Meaford Town Council reported progress and asked Warden and Clerk to sign the following reply and then transmitted to the local body:

To the Mayor and Corporation of the Town of Meaford.

YOUR WORSHIP AND GENTLEMEN,—
The Special Committee of the County Council appointed by the Warden to reply to the kind address presented by your honorable body to the County Council on this, their first visit as a representative body, to your town, beg to thank you most sincerely on behalf of the Council, for the hearty welcome and kind invitation extended to them in your address, and we can assure you that this evidence of good will, coming as it does at the beginning of our session will tend to make our short stay with you highly agreeable to every member of the County Council.

During the short time we have been here the impression we have received of your town has been a most favorable one, and we beg to congratulate you on the evidences of substantial prosperity we have witnessed on every hand. Your fine business blocks, your handsome residences, your electric light and water works systems, and your High School, Public School and Public Library all afford evidence of a thrifty, progressive and intelligent population.

You are fortunate in being nearly surrounded by one of the finest agricultural sections of the country, and one of the best fruit growing districts in the Province, which many of us had the gratification of becoming acquainted with for the first time on this our first visit to your town; and while there are undoubtedly arguments for and against the occasional removal of the County Council from the County Town, we believe we are all agreed that one great advantage of such a change would be that by means of it, the representatives of the people would be afforded an opportunity of inspecting the various parts of the County, and thus acquiring information as to its resources and requirements that they could not otherwise so easily get.

We are pleased to know that the municipal taxes of the County have so materially decreased within recent years, and we hope that by improvements from time to time in our system of representation and by careful economy on the part of the municipal representatives of the County, the burdens of the taxpayers will be still further decreased.

We again thank you on behalf of the Council, for your kind address of welcome, and your expressed desire to make our stay with you agreeable to us individually and as a body.

We have the honor to be, gentlemen, Your obedient servants.

THE COUNTY COUNCIL.
Council then adjourned till 10 a. m. on Wednesday morning.

The Primary is Abolished.

A circular to inspectors and High School Principals has just been issued by the Minister of Education. The most important announcement is that of the abolition of the primary examination. No change will be made in the work required, but primary certificates will not be issued. The change was not unexpected, as there has been a movement in favor of raising the standard required of teachers.

The abolition of the primary examination will not affect the rights of holders of the primary standing obtained in 1888, or in a previous year to attend county Model Schools. If a scarcity of teachers should arise in any county after next year, in consequence of the higher requirements, provision will be made to meet the special needs of the locality. It should be understood that County Burses of Examiners are not allowed to award third-class certificates to candidates who do not make the higher percentage required by regulation 63. A district certificate shall not be granted under this section of the regulations, unless there is a scarcity of teachers, and unless the consent of the department has been first obtained. Renewals, granted under regulation 87, are valid only in the county where issued.

The regulations governing the Public School leaving, first form, and junior and senior leaving examinations remain practically the same as in 1888.

All students entering the Normal College, irrespective of the academic course which they have taken, must take the subjects prescribed in regulation 80, subject to the following conditions:—Holders of senior leaving certificates, granted on departmental examinations, may omit Latin if they do not select the Greek option. Unsuccessful candidates at previous examinations will be allowed to write at the final examination in May of any year without entrance to the Normal College, and may confine themselves to the same subjects as taken previously.

Teachers of 10 year's successful experience, who hold Normal School certificates granted before 1888, and who have the necessary academic standing, may write at the final examination in May without attendance at the Normal College.

SPRAYING FRUIT TREES.

For five weeks agents of the Ontario Department of Agriculture have been giving instruction in the spraying of fruit trees at thirty orchards in different parts of the province. Reports sent to Mr. Orr, Superintendent in charge of

this work, have just been received at the Department, to the effect that fungus is now appearing upon apple and pear trees, and threatens to do extensive injury to these crops unless checked at once by spraying. Insect enemies also are more numerous than usual this year. Apples, with the exception of the Spy, have set well, and where properly cared for there is promise of a good crop. In spraying apple trees to check or prevent the spot, use the Bordeaux mixture, made as follows:

BORDEAUX MIXTURE.
Copper Sulphate.....4 pounds.
Lime (fresh).....4 pounds.
Water.....40 gallons.

Suspend the copper sulphate in five gallons of water. This may be done by putting it in a bag of coarse material, and hanging it so as to be covered by the water. Slake the lime in about the same quantity of water. Then mix the two, and add the remainder of the forty gallons of water.

Warm water will dissolve the copper sulphate more readily than cold. If the lime is at all dirty, strain the lime solution.
