OUR OTTAWA LETTER.

Ottawa September 3rd.

Dr. William Saunders, Dominion Director of Experimental Farms is back from his western tour of inspection. His report of the harvest outlook is very encouraging, for he declares his belief that instead of a average 17.41 bushels of wheat per tongue, sick headache, inacre as estimated by the Provincial Government, the indications are that the Manitoba crop will pan out 20 to 25 Prepared by C. I. Hood & Co., Lowell, Mass. bushels. Hay is reported light and flax above the average. Harvesting operations are well advanced and all danger from frost is practically over

been daily shipments to all parts of the County Treasurer tax sale list. country in reach of the railroad as far east as Winnipeg and the experiment has been attended by most marked and gratifying success. These gratifying results are largely traceable to the excellent experimental work on the government farm at Agassiz, where no less than 2004 varieties of

truit are being cultivated.

Major Walsh heard from. So much has been said and written upon the condition of affairs in the Yukon and the conduct of government officials there, that any further reference thereto almost requires an introductory apology to a long suffering public. The whole question is sub judice in a sense, for the new administrator, Mr. Oglive is charged to make 10 fullest investigation thereon, and in spite of the fact that he is a relative of the terrible Sifton, the people have confidence in him. It is fortunate that the case is not likely to come before the Supreme Court of appeal, -the people-for final judgement until the various stories are sufficiently sifted and examined to arrive at some measure of fact, but in the meantime, the arrival of Major Walsh within the sphere of civilization has given an opportunity for further enquiry. In the hurricane of abuse which has been showered upon the officials the Major has escaped fairly well, so that his opinion will probably be accepted by

Not a complaint made. In a Winnipeg interview the late administrator said he had repeatedly made public request that anyone having a complaint against any official would make it known and a prompt investigation would follow, but although this challenge was reiterated time and again, there was not one complaint made. A general charge was made against two clerks in Gold Commissioner Fawcett's office, and they were suspended for two weeks, McFadden-Firth--That the Reeve and evidence in support thereof and they at any miner's meeting, " added the Major, "any resolution adopted reflecting in any way on the officials ". Even the "Klondyke Nugget", the Dawson paper which is published by at 10 a. m. Americans and was avowedly "agin the government" and all constituted authority, has dropped its seditious opposition and is now on the side of law and order, - and the officials. Surely
