A Message to Athletes

To play a good game the first requisite is to be physically fit—digestion, nerves, eyesight must be first-class. The same applies to life insurance. In order to secure its benefits normal health is essential. Thousands are declined by insurance examiners every year because unfortunately they postponed their applications until physical weakness developed. Early manhood and womanhood is the time for securing life insurance, when life is at its best. And there is another reason—it is in youth and early manhood that the largest amount of protection can be secured at the lowest cost. For your insurance needs consult a representative of
