EDUCATION FOR FREEDOM

Culture is not enough. Greece experienced an unusually high degree of culture, but Greece fell.

Legislation is not enough. Rome had its great laws, studied even in modern law schools, but the Roman Empire fell.

Technical training is not enough. Germany had its outstanding technicians, but they could not prevent the tragic experiences of recent years.

Patriotism is not enough. All nations have their loyal citizens. But loyalty may be blind, ignorant, misguided, narrow, self-satisfied, and uncritical. That is the way of isolation and stagnation.

Christian Education makes the difference in the lives of people and of nations necessary to guarantee the perpetuity of a desirable civilization.

Christian Education presents all the facts, without fear or favor, especially the one great Fact of all history—GOD.

Christian Education interprets the facts in the light of God and His revelation.

Christian Education suggests programs of action for the good of all peoples, in all countries, and in all centuries.

Christian Education appeals to the individual conscience on the basis of a personal God manifested in Jesus Christ.

Christian Education strives for the freedoms which make men free indeed:

- Freedom from ignorance and freedom for expression
- Freedom from want and freedom for achievement
- Freedom from fear and hate and freedom for co-operation
- Freedom from superstition and freedom for worship
- Freedom from sin and freedom for loving service

Pastors ministering to students, colleges and theological seminaries determine the education for freedom.
