Notes on In Touch With U for March 29

Prof. Ralph Blackmore, a Wilfrid Laurier University economist, discusses pensions and why you may have to work well past 65, if you hope to eat that is, when he's a guest on In Touch with U, the university's monthly information program. It will be aired tonight on Grand River Cable 4 at 7:30 p.m. A special sport segment and a discussion of why those bells kept ringing on Parliament Hill rounds out the program, hosted by Richard K. Taylor, WLU information director.
