WHATEVER YOUR
SALARY NOW,
OR IN THE FUTURE

\$ 6,000

\$ 8,000

\$15,000

**COULD YOU LIVE
ON \$1,275 A YEAR**

That is the maximum amount (as presently calculated) payable to contributors under the Government Pension Plan. (Plus \$900 Old Age Pension).

\$ 1,275

IT HELPS, OF COURSE. But is it enough for people who earn five, ten, fifteen thousand a year — or more? Is it enough?

WE DON'T THINK IT'S ENOUGH. That's why the Government Pension Plan — however vital a contribution to old age security — should be supplemented by a Standard Life Retirement Income Plan.

You'll find one of our expert and experienced people at our office listed below. Find out — no cost or obligation — how The Standard can help you and your family achieve *real* retirement security.

THE
STANDARD LIFE
ASSURANCE COMPANY
