SPECIAL TO BONNIE MALLECK

In Touch With U returns Sept. 29

Two political scientists at Wilfrid Laurier University, John Redekop and Barry Kay, will discuss the recent tragedy in Lebanon and speculate on where the blame may lie tonight (Sept. 29) on Grand River Cable TV, Channel 4, at 7 p.m. They will be taking part in the first program of the monthly series, In Touch with U, returning for its second season. Also on the program, Dr. Wynn Watson, a Laurier biologist, will open the doors to the world of animals and insects contained in the university's zoology museum. Host for the program is Richard K. Taylor, Laurier's information director.
