Cameron Heights student wins

German group's trip to Europe

Michael Kahnke, a grade 13 student at Cameron Heights Collegiate Institute, is the winner of a trip to Germany. It is the top prize in the annual contest among high school students of German, conducted by the K-W German-Canadian Business and Professional Men's Association.

Kahnke, of 178 Millwood Cresc., Kitchener, scored 96 per cent in a three-part examination, conducted by Kurt Nabert, associate professor of German at Wilfrid Laurier University.

The 10-day European trip likely will be taken by the winner during the summer vacation period.

Ulrich Roetsch, chairman of the association, said the contest, open to all students of German in the Region, is a part of the group's continuous efforts to foster the study of German language and literature.

At a fall meeting, the winning student is expected to report, in German, on his experiences during the trip.
