WLU board of governors approves salary increases for staff

The board of governors at Wilfrid Laurier University approved a program of salary adjustments for its 350 managerial, professional, technical and administrative support staff members at its regular meeting April 10.

The adjustments, effective July 1, include across-the-board increases of five per cent.

In addition, approximately \$62,000 was approved to redress market anomalies and inequities resulting from the implementation of pay equity legislation, which WLU completed on Jan. 1.
