Ancient instruments feature of concert during festival at Laurier

Hear the East and West, and the past and present make music together during a week-long festival at Wilfrid Laurier University.

On January 22, two music specialists will present a concert of folk and classical music on ancient instruments from the Near East.

Part of Laurier's archeology and ancient civilizations festival, it takes place at noon in the recital hall of the John Aird Centre.

For more information, call 884-1970 ext. 4882.
