Jan'y 21, 1914.

Dear Mother:-

As the time for my epitology effort has rolled around again I will see what I can do for you in that line to-night. We had a big snow storm to-day. It began directly after 7 o'clock this morning and kept it up all day till about 8 o'clock to-night. It was accompanied by heavy wind and there is a great fall of snow. Sleigh roads will be all right from this out. Sleighs have been used considerably for the past week or so, but it was pretty scratchy going. I did not risk taking my sleigh last Saturday when I went down the river. The snow was not deep enough to interfere with the wheeling and the roads were reasonably good. Sunday was a fine day, though quite cold and very windy. With the exception of Feltzenburgh, one of the windiest places on earth, where a few men and only two women ventured out, I had large congregations. I drove home from Middle La Hove on Sunday night, the thermometer standing down near zero. Since then the weather has been a little milder. I will only have to go down into the Rose
