

and happiness in their first born and hope they will
have others to follow. I hope too that the dear little
thing will survive her second name. It is fearfully and
terribly long and equally odd. However, I suppose they will
call her Florence and she can drop her second name ^{when she gets married} which
will be an added incentive not to be an old maid.
You remember Rev. Irshick, the "Prussian Prince." Well, he is at
present over at Springfield, O. at the Res. Prof. Dr. Nevi's for the
purpose of securing consent of the parents to his marriage
to their daughter. I wish him every success. I don't know
whether this will affect his plans for going as a missionary
to India next fall or not. He had applied himself to the Foreign
Mission Board for this purpose. But if it should, what
would be India's loss would be Canada's gain, and bi-
lingual pastors are badly needed here at present. Students
Gartung and Jacobie have both formally accepted their
Nova Scotia calls. Dunbar, Morrisburg and Unionville
are still vacant with no prospect of being filled from
our Seminary and the Canada Synod has over a half
dozen vacancies. We will have three men in the present
Senior class for Canada Synod vacancies and probably a
fourth man for the Dunbar vacancy if he will take it. At
present we are negotiating with Mr. Oetzel to buy his house
and lot as a Professor's residence for Prof. Hentzel. I have
done all I can do in the matter and have turned the affair
over to the building committee. Profs. Willison and Zinet
have sent what is practically an ultimatum to the Board
asking that their salaries be raised to \$1800 a year, the same
to be retroactive to Jan'y 1, 1921. I don't know what the
Board will do in the matter, but I imagine that they will
have to come to it. I hope, if they do so, that they will
raise the other salaries also.

I suppose the next news about infant industries will be
from Sherburne and Berie. It seems that Florence beat Berie
to it this trip. Bonnie says she is so big now that she is
afraid she will get the twins that Berie and Herbert are
looking for and that if she does she will never go down
