47 Union St.
July 26. 1917

Dear Bro. Little:—

Your acceptance of the call to the Professorship to hand. I am certainly pleased that you are coming to the Seminary. May God bless you in your new work. I know there will be difficulties in this work as there are in every place, but I know that with God's help you will overcome them, and will do great work for Christ's Kingdom and the advancement of His Church.

I have had the plumbers inspect the old heating system, and they claim that it can be repaired with very little expense, and that it will heat the building, but that there shall be no sparing of coal. They also state that the furnace was clogged up and was not kept properly cleaned,

which had a great deal to do
with it being inadequate. The
man who lived in the building
before the Seminary purchased it
claims that the furnace heated
the building when it was fired
heavily. That of course means lots
of coal. Well, the Board will
have ^{to pay} for the coal that is burned over
the amount required to heat an
ordinary house. We will see
that the house is warm in one
way or another. It must be
comfortable for your family.

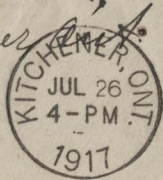

You will have the garden
that Dr. Lawry had ~~before~~. It is a fine
garden.

About how much will your
moving expenses amount to? Let
me know, so that I can arrange to
have them advanced to you.

When will you arrive in Volant?
With kindest regards and best wishes
to yourself and family, I am

Very sincerely yours
H. J. Behrens
