

LUTHERAN THEOLOGICAL SEMINARY AND WATERLOO COLLEGE

WATERLOO, ONTARIO

as long as I have health and strength, but if Bonnie had been left a few thousand it would have relieved her of trouble for the future in case I should die. However, as I have said before, we will not make any fuss over it. But all the same we can't help but think Mrs. S. B. was too greedy.

Last week the authorities sent 76 prisoners of the Kingston, Ont. Penitentiary to the Saskatchewan Penitentiary in the west on account of the former being overcrowded. The population of the Kingston Penitentiary doubled in the last five years - the period of prohibition which was to do away with the necessity of such institutions. I am thinking that even prohibition enthusiasts will not be so blind as to fail to see that prohibition did not bring in the promised millennium.

I see from the papers that one of the prisoners escaped on the way. Bonnie asked me to thank you for your kind expressions of condolence in the letter you sent. She wants also to write to Mahel and will no doubt do so on the earliest opportunity. She is as usual a very busy woman.

With the Willisons and the Zincks away it is pretty quiet up here on the hill now, but as the lower road is closed all the traffic comes this way and the passing of automobiles is continuous. There was a bad accident in town Monday pm. Jacobi, father of Rev. Jacobi of Nova Scotia was knocked off his bicycle and very seriously wounded, having his skull cracked several ribs broken and other injuries. He is still in the hospital but is improving and the doctors think he will recover. Mrs. Boekelman also had an accident in avoiding an automobile. She fell and broke her wrist. Pastor Boekelman sent for some corn yesterday. He said he was chief cook and that he wanted something that would give him as little trouble as possible.

I want to say again that I enjoyed my visit down home very much and only wish it could have been longer.

With much love to you all, I am

Most Sincerely yours,

Correll A. Little.
