

spent the evening with us. This was in requital for their entertaining of us during the Christmas holidays. Bonnie had a fine supper which I think they enjoyed. She still has the trunks and a couple others to requite. We were surprised the other day to see in the Globe, Toronto, that Dr. Dehn was back in Toronto again. He left for Germany in Sept. last fall. Since then we hear that he is completely on the rocks and is lying, eating and sleeping in one room in Toronto. Prof. and Mrs. Heutel sent him a box of roast chicken and other eatables this week. He couldn't have found things very satisfactory in Germany as he intended to stay when he left here last fall. I succeeded in getting one-half ton of coal this week and will have enough now to run me about two weeks longer. If I can get a little from time to time we will be able to see the winter through without discomfort or freezing. The cost is still rising I had to pay \$9<sup>25</sup> for the half ton. The children are all over their colds at last and are enjoying the out-door sports quite regularly again. The little fellows, Arthur and Robert, want to play chess nearly all the time when they are in the house and I often have quite a time to get rid of them. Bonnie had a letter this week from Don's wife. She said Mrs. D.B. had arrived back from Phil's and was with their mother at Mahow Bay. She had sufficiently improved, she said, to make the trip back alone. You should see Ruth these days. She talks so well for a girl of her age and size and has no trouble to make her wants known. She can also understand and speak some German and can sing a number of hymns and practically all the songs the children learn at school. She has a sweet disposition and is quite devoted to her father. Well, I must close for this time. With love to all, I am

Most sincerely yours,  
Corroel Little.
