

which she is sending to Ceile. The other one is for  
you from Eileen. Eileen is very popular and received  
18 Valentines from her various classmates in school  
Friday. She is getting along nicely in school and  
bothers me every night to give her addition and sub-  
traction questions. She has a sweetheart by the name  
of Walter Mook, a little fellow who goes to the College  
and whom she says she is going to marry. She said  
she skated with him the other night and that she  
asked him to skate with her. I think the love is mostly  
on her side. Eileen is a good skater and you would  
be surprised to see how she can skate. Little Catherine  
loves to get out doors and to play in the snow and  
doesn't seem to mind the cold even when it is very  
severe. She and Ruth are great chums and she knows  
about everything that Ruth does. Ruth has been teaching  
her the commandments and she can say several of  
them and is particularly fond of going over the second  
Commandment. She and Ruth are very different. Ruth  
is very quiet while she is as lively and vivacious as  
you please. They are both very fond of their father  
and I get a lot of pleasure out of them. The Seminary  
skating party an annual event is coming off on  
Tuesday night of this week. The boys have great  
ice on their rinks now. I go over for half an hour  
or so nearly every night when I am not too busy.  
I am still running my catechetical class at Rut-  
port and generally walk down there which gives me  
just a good amount of exercise. I hope to finish up  
the class by Easter. I finished another of my courses  
with Chicago last week. I now have 18 of my 23  
courses worked off. I read some 20 books of Theology  
on the last course. At the place where I stopped to-day  
the man gave me a cigar which his son had sent  
him from Manila, Philippine Islands, which I am  
smoking now. It has a delightful fragrance. But  
I must close. With love, I am

Most sincerely yours,

Cannell H. Little.
