

# Some Reasons Why the Government of the National, Liberal and Conservative Party Should Be Upheld.

---

*Its Platform is Sane, Progressive,  
Democratic, and Nation Wide  
in Its Scope.*

It represents all classes.

---

It stands for nation building as opposed to the numerous forces that are trying to tear down and wreck.

---

Present conditions are such that it alone stands between this country and chaos; between every moral and material interest in this country and chaos.

---

Class movements with their class consciousness would lead to group government, which would mean political chaos with corresponding financial and commercial disturbance if not disaster.

---

Disregarding the cries and clamours of the cranks, the agitators, the theorists and experimenters, the Government holds to the path and the principles that have brought us to comparative happiness and plenty, to peace with honour and to lusty, sturdy strength; that have made us the most vigorous and promising of all the younger nations of the earth.
