**LOST—LAST WEEK, BLACK, WHITE and tan collie dog. Finder notify Meadow Farm and receive reward. Phone Winnetka 288. 2-1tc**

## CHICAGO, NORTH SHORE AND MILWAUKEE IN LEAD

**Gets Two Contracts For Transportation of Militia Troops—Renders Good Service.**

The Chicago, North Shore & Milwaukee railroad secured the first contract ever given to an electric road for the transportation of troops.

Recently two contracts were given this road to transport troops from Fort Sheridan to their homes. Members of the militia, returned from the border, were mustered out at Fort Sheridan, and had to be transported to their homes.

On receiving notice that the road's bid had been accepted, President Budd immediately took steps to render the very best possible service. He went to Fort Sheridan and took charge of transportation arrangements in person, so as to provide for dispatch of trains and the comfort of the troops enroute.

The first contract called for carrying of the Third Wisconsin infantry from Fort Sheridan to various points in Wisconsin. The troops were taken from Fort Sheridan to Milwaukee by the electric, and delivered to the Chicago, Milwaukee & St. Paul station, over which lines they were taken to their respective homes. The baggage of the militia was transported from Fort Sheridan to Milwaukee by the electric road.

At Milwaukee, the troops, on their arrival, were met by the mayor, city officials, prominent citizens and a band, and conducted to the C., M. & St. Paul station.

Last Friday, the Seventh infantry, Illinois National Guards, were transported by the Chicago, North Shore & Milwaukee electric from Fort Sheridan to Chicago. Through trains were run to Fifth avenue and Randolph street. The run was made in seventy minutes.

The service of the Chicago, North Shore & Milwaukee road was greatly appreciated by the militia officers and troops. The officers commended most highly the equipment and the courtesy of the officials of the road, as the best they had received since they left Chicago for the border.

## Paper, Sir?

Experiments with jack pine have shown that it is well suited for making kraft paper. On some of the national forests this tree is used to plant land which is too poor to grow other timber.

## No Kick Coming.

The men have no kick coming. About 987,654,321,000 women could paint their cheeks for what it costs one man to paint his nose.—Cincinnati Enquirer.

Fish cannot live in foul water nor man in foul air.

# NATIONAL PAY-UP WEEK CAMPAIGN STARTS MONDAY

Merchants Enthusiastically Endorse Movement At Meeting First of Week

## TO ADVERTISE FREELY

Plan Will Educate Consumer To Value of Cash Purchases

New Trier merchants are all working enthusiastically on the plans for the National Pay-Up Week campaign which is being held all over the country during the week of February 19 to 24.

At a meeting of the merchants of Gross Point, Monday night, it was decided to cooperate in the campaign and to carry out an extensive plan of special advertising for this occasion. They will do this in addition to the general publicity which has been planned.

## Open Campaign Next Week.

The local campaign will be opened next Monday by a series of general publicity, including the use of labels, posters and window cards. This will be followed, next week, with more intensive efforts in the way of personal letters.

National Pay-Up Week is a progressive step toward building up the business efficiency and preparedness of our nation. It is a step promoted by a progressive citizenship and in the long run will make for better conditions for every consumer, because it will stimulate the pay-as-you-go habit, and do much to place the business of the country on a cash basis.

## Cash Gets Best Price.

People don't live beyond their means when they are paying their bills promptly or buying for cash, and such an individual can be justly termed progressive, for not alone is he living upon a business basis but he is also living at a minimum expense, since in every business the cash buyer and first grade credit customer secures the best prices and most satisfactory service.

We believe that the man who doesn't make the objects behind the National Pay-Up Week an abiding principle in conducting his personal financial affairs will be left in a distinct and isolated class, and the change for the better is going to be gradual, as the country progresses.

## Little Money Goes Long Way.

It is so easy for a little money to build up a great deal of prosperity when it is kept moving in legitimate channels that the beneficial results of National Pay-Up Week are certain to be felt far and wide. Let everybody plan, during this week, to clean off the slate all obligations and enter into the coming season prepared to do better than we have ever done before.

This Pay-Up Week is for everybody, and in keeping with the objects of the campaign, we unhesitatingly urge that you make an effort to secure settlement with everybody who owes you, whether it be for merchandise or service, or whatever value you have rendered them. Every carpenter should be busy during this week making settlement with the people who owe him.

## NEW NORTH SHORE REAL ESTATE FIRM

A. B. Casey, Wilmette, and W. S. Bell, Winnetka, with Chicago Offices, to Sell N. S. Realty.

A. B. Casey, of Wilmette, and W. S. Bell, of Winnetka, who have been associated with the firm of McGuire & Orr as managers of their suburban offices, have formed a partnership for the purpose of specializing in north shore real estate. The new firm has taken offices in the Otis building, Chicago, under the firm name of Casey & Bell.

With the extensive knowledge of north shore property and conditions, gained through many years as residents and, later, as active operators in this section, the members of the new firm may well feel warranted of their success.

## MUNICIPALITIES OF NORTH SHORE STUDY TAX LEVY

(continued from page 1)

the other half at a low value. We also found property, not a great deal of it, that was assessed at more than its full value. They found also that it was vitally important to keep a memorandum of all new buildings erected during the year in order that the assessor may be informed.

It is a physical impossibility for any assessor to make a proper assessment without full facts and assistance of this nature. These gentlemen did the work for \$1,200.00. The total cost to the village government of Glencoe was \$74.94, and to the park board—\$23.77 and \$100.09 to Glencoe school board, which represents our proportion of the cost.

## Assessor Had "Cold Feet."

"The assessor, when he found the difference between the value of the property as shown by Mr. Terry's statement and the value as shown by his predecessor, got 'cold feet.' He was afraid of the terrific amount of advance, and in order to reconcile his conscience and the increase in valuations adopted the method of taking as the entire value, 3/4 of the full value fixed by Murray and Terry and 1/3 of this 3/4 to cover the assessed valuation, which the different taxing bodies used as a basis in making their annual tax levy. While this is in accordance with the provisions of the taxing laws, the method employed by the assessor necessitated a high tax rate, in order that the different taxing bodies could get sufficient funds for their needs. The comparison of these rates with other municipalities is misleading."

"The real estate experts had the valuations at anywhere from 80 per cent to 100 per cent of what they really should have been, so that the assessed value was anywhere from 10 per cent to 12 1/2 per cent of the actual value of the property. Our rate was 9.82 so that our taxes were at 1 1/4 per cent of the real value of the property."

## Much Objection.

"Naturally enough we had a great deal of objection to this plan, as you will have to any plan in any municipality. I went before the Board of Review and protested against the value being placed at only 3/4 per cent of their actual value and some of my friends objected also. My contention was that this basis, which was being fixed for four years, was too high, when as a matter of fact it was low. The Board of Review refused to disturb the method of the assessor and the township of New Trier was the only properly assessed township in the county as the valuation was equally divided. Among the people who also protested was Wilmette; they had reached their bonded limit and thought they were being held up when as a matter of fact they were not."

"The objection to high valuations is that we pay more for state, county and sanitary district taxes than we would if the valuations were low. The argument in favor of the very low value and the very high rate is that you can issue bonds and in that way get money without contributing any more to the state, county and other taxing bodies. However, we should be perfectly willing to contribute our just share. Any of you gentlemen who are familiar with the taxes in Chicago know that they are

more equal in the city than in the country. If you figure it out you will find taxes in the city are much higher than in the country, although we should really be taxed higher because we are newer and we demand and get more than the city."

## Townships Satisfied.

"The net result has been that the people of New Trier township are very well satisfied. We heard complaints from those whose taxes were raised, but, at the same time, find that they are absolutely pleased. What the people ask and demand is an equal division; they don't want to feel that they are paying more than their neighbor but to know that each and every one is paying his just share."

Much interest is being manifested by the members in the work of the several committees of the association and a great deal is being learned from time to time which will prove of inestimable worth and aid in accomplishing the work that the association is undertaking.

## Not the Same.

"Did the sporting editor give you that fight ticket you asked him for?" asked the red-headed office boy. "Naw," replied his friend. "He only made a pass at me."
